Contents

Part I Some Information on Climate and Emissions. World Transformation on the Example of Poland

1 Introduction—Some Facts and Opinions 3

2 Some Information on Climate and Emissions. Where Are We Heading? 7
2.1 Fragile Climate Balance 8
2.2 Reports of IPCC and WMO. In the Centre of Disputes 10
2.3 Interesting Scenarios of National Geographic 12
2.4 Other Opinions 14
2.5 Climate Apartheid. Climate Denialism 17
References 19

3 CO_2 Emissions. Will the European Union Become "Don Kichot" in a Lonely Fight? 21
3.1 European Green Deal. A New Idea 22
3.2 Will Coronavirus Pandemic Slow Down the Process of Green Deal? Will It Change the World? 24
3.3 European Green Deal—Road Map—Key Actions 30
References 31

4 Energy Industry: Visions, Forecasts, Scenarios 33
4.1 We Need to Look at the Energy for the Future from Another Perspective—The Role of New IT Tools, Electromobility, Smart Cities 34
4.2 Is the Sun and Hydrogen Age Ahead of Us? 39
4.3 Scenarios of the International Energy Agencies 40
4.3.1 Dominant Position of Renewable Energy Sources 41
4.3.2 Electricity 43
4.3.3 Hydrogen 44
4.3.4 WWS (Wind, Water, Sun) Plan—100% RES 45

4.3.5 Community Energy Based on Disseminated Energy Appliances/Renewable Energy Sources Technologies ... 46
4.3.6 Transformation Costs ... 49
4.3.7 Prospective Technologies for Community Energy ... 49
4.4 Power-to-X Technologies ... 50
References ... 51

5 Transformation in Poland. Scenarios. Controversies. Programs ... 53
5.1 Official Documents: Energy Policy of Poland Until 2040 (EPP2040), Energy Plus, Report of the Power Engineering Problems Committee of the Polish Academy of Sciences ... 53
5.2 European Green Deal Versus Poland ... 58
5.3 Other Scenarios ... 58
5.4 Smog—Pressing Problem of Poland and Other Eastern European Countries ... 62
5.5 Electromobility in Poland ... 68
5.6 Polish Hydrogen Strategy ... 72
5.7 Controversies—Dilemmas ... 75
References ... 77

6 Which Energy Mix for Poland and for Other Countries of the World Based on Coal Energy? ... 79
6.1 The Role of Gas in Energy Mix ... 83
6.2 *"My Energy"* Program ... 84
6.3 Closed Circuit Economy ... 86
Reference ... 87

Part II Human Impact on Progressive Climate Change, New Trends in Social Behaviour in the Fight Against Climate Change

7 Afterthoughts and Conclusions ... 91

8 Energy Poverty ... 93
8.1 Description of the Phenomenon and Definition of Energy Poverty ... 93
8.2 Energy Poverty and the Problem of Smog ... 94
8.3 Preventive Actions ... 98
References ... 100

9 Smart Cities ... 101
9.1 Introduction to the Subject of Smart Cities ... 101
9.2 Standards Sharing, Integration and Activation ... 104
9.3 Smart City Standards—Building the Foundations of ALLternet Infrastructure (ALL) ... 107

9.4 Development Opportunities Based on the Idea of Smart Cities ... 113
References ... 114

10 Industry 4.0—The Fourth Industrial Revolution ... 115
10.1 What is the Fourth Industrial Revolution? ... 115
10.2 Industrial Revolutions in the Past and Their Impact on the Environment and Urban Space ... 117
10.3 What is Industry 4.0? ... 118
10.3.1 Beacons, Geolocation and Augmented Reality ... 122
10.3.2 Cloud Computing ... 124
10.3.3 Artificial Intelligence ... 128
10.3.4 Big Data and Data Analysis ... 132
10.3.5 Systems Integration ... 133
10.3.6 Simulations ... 134
10.4 Social Aspects of Industry 4.0 ... 135
10.5 Industry 4.0 and Business ... 139
References ... 140

11 A Few Words to Sum Up ... 141

Part III Influence of Technologies Developed at IMP PAN on the Process of Energy Transformation in Poland

12 Before We Start ... 145

13 Polish Academy of Sciences and the Institute of Fluid-Flow Machinery in a Nutshell ... 147
13.1 Polish Academy of Sciences ... 147
13.2 The Robert Szewalski Institute of Fluid-Flow Machinery of the Polish Academy of Sciences ... 149
13.3 Topics, Structure, Research Teams ... 149
13.4 Science Schools ... 153
13.5 Historical Background with a Hint of Nostalgia ... 166
13.6 Branch Office—KEZO Research Centre in Jabłonna ... 168

14 How to Start the Energy Transformation ... 175
14.1 The Direction of Energy Transformation According to the Authors ... 175
14.2 Smart Municipality/Smart Region as an Example of a Possible Transformation Path ... 182
14.3 Energy Mapping and Selection of Appropriate "Clean" Technologies ... 185
Reference ... 190

15 Technologies Necessary to Carry Out the Energy Transformation 191
15.1 Introduction, Presentation of the Institute's Key Projects 191
15.2 Municipal Energy Centre (GCE)—A Computer System for Managing Energy Resources in Municipalities 205
15.3 Energy Technologies for Agricultural Municipalities 206
15.3.1 Installation of Gasification of Straw Bales 207
15.3.2 Microturbines in Food Production 209
15.3.3 Purification of Syngas 210
15.3.4 Agricultural Biogas Plant. Installation in Bałdy 210
15.3.5 Installation for Obtaining Water Biomass 211
15.4 Large Installations on an Industrial Scale 212
15.4.1 "Żychlin" Installation 213
15.4.2 "Szepietowo" Installation 214
15.4.3 "Lubań" Installation 215
15.4.4 "Bałdy" Installation 217
15.5 Cogeneration Systems 217
15.5.1 Laboratory of Polygeneration Micro-Power Plants 218
15.5.2 Pyrolysis Gasifiers 219
15.5.3 Cogeneration System with Fuel Cells 219
15.5.4 Prototype of the ORC Home Microgeneration Plant with Micro-Turbines and a Multi-Fuel Boiler 220
15.5.5 Coupled Biomass Gasification System with SOFC Cells 222
15.5.6 Development of Microturbines at IMP PAN. Use of Waste Heat 222
15.6 Energy Storage 226
15.6.1 Hybrid Energy Storage 228
15.6.2 Heat and Cold Storages 228
15.7 Anti-smog Technologies Developed at IMP PAN 231
15.7.1 Low-Power Electrostatic Precipitator for Older Boilers in Domestic Installations 232
15.7.2 Ultra-Low Emission Coal Boiler 234
15.7.3 Home Cogeneration Plant 236
15.7.4 Scaling. A Series of Types of Higher Power Plants 237
15.7.5 Fighting for Clean Air. National Clean Air Centre at CB KEZO in Jabłonna 237
15.8 Institute's Works for the Development of Hydropower 239
15.9 Small Wind Energy at IMP PAN 243
15.9.1 Introduction and Basic Information 243
15.9.2 Design and Operation of Windmills 245
15.9.3 An Innovative Solution of IMP PAN 247
References 251

16 Other Activities of the Institute for Energy Transformation 253
16.1 LowTEMP Project—Low-Temperature City Heating 253
16.2 Act Now!—Reduction of Energy Consumption in Buildings 255
16.3 WASTEMAN Project—Waste Management 257
16.4 CIRTOINNO Project—Circular Economy for Tourism 260
16.5 The Green Gate of Kashubia (Kaszuby in Polish) 262
16.6 Legionowo Energy Cluster 264
16.7 SuPREME Project—Works at CB KEZO 267

17 Summary and Acknowledgements 271
