Contents

Preface iii

1. **The Nitrogen Cycle: An Overview** 1
Massimiliano Fenice

2. **The Nitrogen Fixation Dream: The Challenges and the Future** 22
Allen G. Good and *Ray Dixon*

3. **Nitrogen Cycle in Agriculture: Biotic and Abiotic Factors Regulating Nitrogen Losses** 34
María López-Aizpún, Antonio Castellano-Hinojosa, Jesús González-López, Eulogio J. Bedmar, Nadine Loick, Harry Barrat, Yan Ma, Dave Chadwick and *Laura M. Cardenas*

4. **Nitrification and Denitrification Processes: Environmental Impacts** 60
Jessica Purswani and *Clementina Pozo Llorente*

5. **The Contribution of Fungi and Their Lifestyle in the Nitrogen Cycle** 82
Mercedes García Sánchez, Sergio Saia and *Elisabet Aranda*

6. **Biotechnological Applications of Bioeffectors Derived From the Plant Microbiome to Improve Plant's Physiological Response for a Better Adaptation to Biotic and Abiotic Stress: Fundamentals and Case Studies** 102
Ana García-Villaraco, Jose Antonio Lucas, Beatriz Ramos-Solano and *Francisco Javier Gutierrez-Mañero*

7. **Anammox Process: Biotechnological Impact** 124
Alejandro Gonzalez-Martinez, Irina Levchuk and *Riku Vahala*

8. **Nitrogen Cycle in Wastewater Treatment Plants** 144
Belén Rodelas

9. **Nitrogenized and Chlorinated Compounds Pollutants From Industrial Wastewater: Their Environmental Impacts and Bioremediation Strategies** 203
Jonathan Parades-Aguilar, F. Javier Almendariz-Tapia, Roberto Vázquez-Euán, Marco A. López-Torres, Luis R. Martínez-Córdova and *Kadiya Calderón*

10. Simultaneous Nitrification and Denitrification Processes in Granular Sludge Technology 222
Barbara Muñoz-Palazón, Miguel Hurtado-Martinez and *Jesus Gonzalez-Lopez*

11. Anaerobic Removal of Nitrogen: Nitrate-Dependent Methane Oxidation and Bioelectrochemical Processes 245
Alejandro Rodriguez-Sanchez, Beatriz Gil-Pulido, Alan Dobson and *Niall O'Leary*

12. Influence of Cover Crops on Nitrogen Cycling and the Soil Microbial Community 264
Antonio Castellano-Hinojosa, Clayton J. Nevins and *Sarah L. Strauss*

Index 285
