## 16. Seznam literatury

---

1. Anderson, M., Jordan, J., Morse, A. et al.: A text and atlas of integrated colposcopy. London, Chapman and Hall Medical, 1992, s. 235
2. Bauer, J. a kol.: Obecná a speciální onkologie. Praha, Anomal, 1993, 1. vydání, s. 204
3. Bethesda System. The 1988 Bethesda system for reporting cervical/vaginal cytological diagnoses. J. Am. Med. Ass., 262, 1989, s. 931–934
4. Bonte, J., Vanderstappen, D.: Hormone replacement therapy and carcinoma of the uterine cervix, vagina and vulva CME J. Gynecol. Oncol., 1, 1996, 1, s. 32–35
5. Bouda, J.: Rakovina děložního hrdla v České republice v letech 1977–1988. Čs. Gynek., 1992, 9 – 10, s. 518–5226
6. Cason, J.: Review: Perinatal acquisition of cervical cancer associated papillomaviruses. Br. J. Obstet. Gynaecol., 103, 1996, s. 853–858
7. Cox, J. T., Schiffman, M. H., Winzelberg, A. J. et al.: An evaluation of human papillomavirus testing as part of referral to colposcopy clinics. Obstet. Gynaecol., 80, 1992, s. 389–394
8. Cox, J. T., Lorincz, A. T., Schiffman, M. H. et al.: Human papillomavirus testing by hybrid capture is useful in triaging women with a cytologic diagnosis of ASCUS. Amer. J. Obstet. Gynecol., 172, 1995, s. 946–954
9. Cuzick, J., Szarewski, A., Terry, G. et al.: Human papillomavirus testing in primary cervical screening. Lancet, 345, 1995, s. 1533–1536
10. Cuzick, J., Terry, G., Ho, L. et al.: Type-specific human papillomavirus DNA in abnormal smears as a predictor of high-grade cervical intraepithelial neoplasia. Br. J. Cancer, 69, 1994, s. 167–171
11. Dey, M. P., Woodman, C. B. J.: Epidemiology and pathogenesis of cervical cancer. In: Shingleton, H. M., Fowler Jr., W. C., Jordan, J. A. et al.: Gynecologic Oncology. Current diagnosis and treatment. London, Saunders, 1996, s. 1–8

12. Elfgrén, K., Bistoletti, P., Dillner, L. et al.: Conization for cervical intraepithelial neoplasia is followed by disappearance of human papillomavirus deoxyribonucleic acid and a decline in serum and cervical mucus antibodies against human papillomavirus antigens. *Am. J. Obstet. Gynecol.*, 174, 1996, s. 937–942
13. Ferenczy, A.: Viral testing for genital human papillomavirus infections: recent progress and clinical potentials. *Int. J. Gynecol. Cancer*, 5, 1995, s. 321–328
14. Fife, K. H., Rogers, R. E., Zwickl, B. W.: Symptomatic and asymptomatic cervical infections with human papillomavirus during pregnancy. *J. Inf. Dis.*, 156, 1987, 6, s. 904–911
15. Freitag, P., Motlík, K., Tříška, J.: Výskyt papillomavirových lezí hrdla děložního v klinickém materiálu. *Čs. Gynek.*, 54, 1989, 7, s. 552–553
16. Freitag, P., Draždáková, M., Seidlová, D.: Diagnostika lidských papillomavirů v dolním genitálním traktu detekčním setem ViraPap/ViraType. *Čes. Gynek.*, 60, 1995, 2, s. 87–89
17. Freitag, P.: Infekce HPV v gynekologii. Sborník přednášek ke kursu Venerologie a její perspektiva, Praha, 30. 5.1995
18. Freitag, P., Draždáková, M., Živný, J.: Prevalence HPV infekce a její histologické korelace. *Čes. Gynek.*, 61, 1996, 3, s. 150–153
19. Freitag, P., Draždáková, M., Živný, J.: Prevalence of HPV infection and its histological correlations. Abstract book, 9th World congress Cervical pathology and colposcopy, Sydney, Australia, 1996, s. 77
20. Gaarenstroom, K. N., Melkert, P., Walboomers, J. M. M. et al.: Human papillomavirus DNA and genotypes: prognostic factors for progression of cervical intraepithelial neoplasia. *Int. J. Gynaecol. Cancer*, 4, 1994, s. 73–78
21. Geryk, E., Kolcová, V., Maršík, V. et al.: Vybrané epidemiologické charakteristiky nejčastějších nádorových onemocnění v populaci ČR. Oddělení epidemiologie nádorů MOÚ Brno, Brno, červen 1994, s. 194
22. Guidelines for the treatment of venereal diseases and sexually transmitted diseases, as in fall 1992, updated spring 1995. Compiled by the STD study group of the Austrian society of dermatology, s. 24
23. Hagmar, B., Christensen, J. J. P., Johansson, B. et al.: Implications of human papillomavirus type for survival in cervical squamous cell carcinoma. *Int. J. Gynecol. Cancer.*, 5, 1995, s. 341–345
24. Hippeläinen, M. I., Yliskoski, M., Syrjänen, S. et al.: Low concordance of genital human papillomavirus (HPV) lesions and viral types in

- HPV-infected women and their male sexual partners. *Sex. Transm. Dis.*, 21, 1994, 2, s. 76–82
25. Holub, Z., Voráček, J.: K problematice kolposkopické diagnostiky HPV infekce. *Čs. Gynek.*, 55, 1990, 3, s. 200–203
26. Hording, U., Junge, J., Daugaard, S. et al.: Vulvar squamous cell carcinoma and papillomaviruses: indications for two different etiologies. *Gynecol. Oncol.*, 52, 1994, s. 241–246
27. Hording, U.: Human papillomavirus in epithelial neoplasia of the vulva and the uterine cervix. On the prevalence and possible significance of some genital HPV infections. *Acta Obstet. Gynecol. Scand.*, 74, 1995, s. 489–491
28. Howley, P. M.: Role of the human papillomaviruses in human cancer. *Cancer Res. (suppl.)*, 51, 1991, s. 5019–5022
29. Jirásek, J. E.: Histogeneze cervikálních lézí. *Čs. Gynek.*, 55, 1990, 1, s. 41–44
30. Kaňka, J. a spol.: Komplexní ochrana před rakovinou děložního hrdla. 2. vydání, Praha, Avicenum, 1978, s. 256
31. Kaňka, J.: Kolposkopická klasifikace – otázka stále diskutovaná – a kolposkopické nálezy při SPI. *Čs. Gynek.*, 52, 1987, 8, s. 615–618
32. Kaňka, J., Beková, A., Břicháček, B. et al.: Kolposkopická a cytologická diagnostika SPI v konfrontaci s biopsií a hybridizačními testy. *Čs. Gynek.*, 55, 1990, 2, s. 109–113
33. Kaňka, J.: VII. světový kongres O cervikální patologii a kolposkopii, Řím, 13. – 17. května 1990. *Čs. Gynek.*, 56, 1991, 5–6, s. 374–376
34. Kaňka, J., Krčmář, M., Havránková, A. et al.: Korelace klinické a virologické diagnostiky infekce cervixu lidskými papillomaviry. *Čes. Gynek.*, 59, 1994, 2, s. 70–75
35. Kataja, V., Syrjänen, S., Yliskoski, M. et al.: Risk factors associated with cervical human papillomavirus infections: a case control study. *Amer. J. Epidemiol.*, 138, 1993, s. 735–745
