

# Prameny

V zájmu plynulosti čtení v knize neodkazujeme na zdroje v poznámkách pod čarou. Níže jsou uvedeny publikace, knihy a další zdroje, z nichž jsme v jednotlivých kapitolách čerpali. Některé informace v knize vycházejí též z debat s kolegy a kolegyněmi, jejichž odhady a interpretace, shodujeme-li se s nimi, jsme do textu zahrnuli. Každý pramen je zde uveden pouze jednou.

## Kapitola 1

Mullis, K., et al.: *Specific enzymatic amplification of DNA in vitro: the polymerase chain reaction*. Cold Spring Harb Symp Quant Biol, 1986. 51 Pt 1, s. 263 až 273.

Venter, J. C., et al.: *The sequence of the human genome*. Science, 2001. 291(5507), s. 1304–1351.

*International Human Genome Sequencing, Finishing the euchromatic sequence of the human genome*. Nature, 2004. 431(7011), s. 931–945.

Reich, D.: *Who we are and how we got here: ancient DNA revolution and the new science of the human past*. First edition. ed. 2018, New York: Pantheon Books. xxv, 335 s.

Pääbo, S.: *Über den Nachweis von DNA in altägyptischen Mumien*. Das Altertum, 1984. 30 (s. 213–218).

Pääbo, S.: *Neanderthal man: in search of lost genomes*. New York: Basic Books, a member of the Perseus Books Group. ix, 275 s.

Krause, J., et al.: *The complete mitochondrial DNA genome of an unknown hominin from southern Siberia*. Nature, 2010. 464 (7290), s. 894–897.

Gregory, T. R.: *The evolution of the genome*. 2005, Burlington, MA: Elsevier Academic. xxvi, 740 s.
