Bibliography

All URLs have been checked and updated as of late July 2003. Any broken links reported to the author will be added to the errata list in the book's web site.

The main event in the data compression community is the annual data compression conference (DCC, see Joining the Data Compression Community) whose proceedings are published by the IEEE. The editors traditionally have been James Andrew Storer and Martin Cohn. Instead of listing many references that differ only by year, we start this bibliography with a generic reference to the DCC, where "XX" is the last two digits of the conference year.
