

Bibliografie

Protože jsem chtěl, aby tato práce byla čtivá a držela se v jistých mezích, až na výjimky vynechávám přímé odkazy na podpůrný výzkum. Zacházím s daným materiálem obecně a synteticky. Většinu mi ho laskavě zaslali návštěvníci mých seminářů a všechen se ukázal jako vhodný a nápomocný. Vůbec ale netvrdím, že vždy souhlasím se záměry, postoji či závěry výzkumů.
