

This is a live recording of our concert in Kawasaki Japan on the 24th October 2010. During our usual set we included the Demons and Wizards album in its entirety. To help us be faithful to the original vinyl recording, we invited an old friend of ours Micky Moody ex Whitesnake, to come and play the slide parts on the numbers that needed it.

For a bootleg in this ongoing series, this has a more polished sound, which enhances the overall audio performance. The show was a most-enjoyable experience, and we hope that you enjoy listening to it, as much as we did recording it. 'Appy days! URIAH LEEP
