

Preface vii

SECTION A

Introduction 1

- 1** Introduction 1

SECTION B

History, Physical Examination, and Overview of the Neurologic Examination 5

- 2** Overview of the Nervous System 5
- 3** The Neurologic History 21
- 4** The General Physical Examination 35
- 5** General Outline of the Neurologic Examination 41

SECTION C

Mental Status Examination and Higher Cortical Functions 47

- 6** Gross and Microscopic Anatomy of the Cerebral Hemispheres 47
- 7** Functions of the Cerebral Cortex and Regional Cerebral Diagnosis 65
- 8** The Mental Status Examination 75
- 9** Disorders of Speech and Language 87
- 10** Agnosia, Apraxia, and Related Disorders of Higher Cortical Function 113

SECTION D

The Cranial Nerves 123

- 11** An Overview of Brainstem and Cranial Nerve Anatomy 123
- 12** The Olfactory Nerve 137

- 13** The Optic Nerve 143
- 14** The Ocular Motor Nerves 179
- 15** The Trigeminal Nerve 227
- 16** The Facial Nerve 247
- 17** The Acoustic (Vestibulocochlear) Nerve 271
- 18** The Glossopharyngeal and Vagus Nerves 303
- 19** The Spinal Accessory Nerve 317
- 20** The Hypoglossal Nerve 327
- 21** Brainstem and Multiple Cranial Nerve Syndromes 335

SECTION E

The Motor System 357

- 22** Overview of the Motor System 357
- 23** The Motor Unit Level 365
- 24** The Spinal Cord Level 375
- 25** The Corticospinal (Pyramidal) Level 389
- 26** The Extrapyramidal Level 399
- 27** Motor Strength and Power 411
- 28** Muscle Tone 467
- 29** Muscle Volume and Contour 475
- 30** Abnormalities of Movement 485

SECTION F

The Sensory System 513

- 31** Overview of the Sensory System 513
- 32** The Exteroceptive Sensations 521
- 33** The Proprioceptive Sensations 531
- 34** The Interoceptive, or Visceral, Sensations 539

35	Cerebral Sensory Functions	541
36	Sensory Localization	545

SECTION G**The Reflexes 559**

37	Introduction to the Reflexes	559
38	The Deep Tendon or Muscle Stretch Reflexes	561
39	The Superficial (Cutaneous) Reflexes	579
40	Pathologic Reflexes	583
41	Postural and Righting Reflexes	599
42	Associated Movements	603

SECTION H**Coordination and Gait 611**

43	Cerebellar Function	611
44	Gait and Station	633

SECTION I**The Autonomic and Peripheral Nervous Systems 645**

45	The Autonomic Nervous System	645
46	Peripheral Neuroanatomy and Focal Neuropathies	663

SECTION J**Orthopedic Neurology 689**

47	Neck and Back Pain	689
48	Other Musculoskeletal Disorders	707

SECTION K**Circulation and Cerebrospinal Fluid 717**

49	The Blood Supply of the Brain	717
50	The Ventricular System and the Cerebrospinal Fluid	737

SECTION L**Special Methods of Examination 745**

51	The Examination in Coma	745
52	Miscellaneous Neurologic Signs	763

SECTION M**Diagnosis and Localization of Neurologic Disease 769**

53	Diagnostic Reasoning and Neurologic Differential Diagnosis	769
