Preface: What Will the Future Bring?	xiii

PART 1: BACKGROUND

1 Worrying about the Future	1
Why Now?	3
Is a Forecast Possible?	4
Why Forty Years?	6
Bases for an Educated Guess	7
Full Steam Ahead with a Peaceful Mind	10
2 Five Big Issues toward 2052	11
The Sustainability Revolution	12
Five Central Issues Involving System Change	13
The End of Capitalism?	14
Glimpse 2-1: The Dark Decades: Privilege and Polarization	15
The End of Economic Growth?	23
Glimpse 2-2: Constraining Asian Consumption	23
The End of Slow Democracy?	30
Glimpse 2-3: Shuffling toward Sustainability	31
The End of Generational Harmony?	36
Glimpse 2-4: Intergenerational War for Equity	36
The End of Stable Climate?	40
Glimpse 2-5: Extreme Weather in 2052	43

PART 2: MY GLOBAL FORECAST

3 The Logic behind My Forecast	53
The Guiding Star	54
A Broad-Brush Picture	54
A Brief Summary of My Story	55
The Deterministic Backbone	56
Linear Presentation of a Circular Maze	57
The Mathematical Formulation	58
A Final Note on the Data Base	59
4 Population and Consumption to 2052	62
Population Will Peak	62

	Workforce Will Peak a Little Earlier	65
	Productivity Will Grow, but Meet Obstacles	67
	Production (GDP) Will Grow, but More and More Slowly	70
	Glimpse 4-1: The End of Uneconomic Growth	73
	Investments—Forced and Voluntary—Will Increase	78
	New Costs Will Emerge	81
	Adaptation and Disaster Costs Will Explode	86
	The State Will Get More Involved	88
	Glimpse 4-2: Light Green Growth	90
	Consumption Will Stagnate—and Fall in Some Places	93
5	Energy and CO₂ to 2052	99
	Energy Efficiency Will Continue to Rise	99
	Energy Use Will Grow, but Not Forever	102
	Climate Intensity Will Be Reduced by Renewables	103
	Glimpse 5-1: The Road to PV	106
	Glimpse 5-2: The Death of Nuclear	110
	CO ₂ Emissions from Energy Will Peak in 2030	116
	Temperature Increase Will Exceed Plus 2°C	118
	Plus 2°C Will Cause Real Difficulties	120
	Glimpse 5-3: Troubled Arctic Waters	121
	Glimpse 5-4: The Flight to the City	125
6	Food and Footprint to 2052	130
	Food Production Will Satisfy Reduced Demand	130
	Biofuels and White Meat Will Advance	133
	Glimpse 6-1: Expensive Oil = Expensive Food	133
	Glimpse 6-2: The Limits to Protein	138
	Commercial Fish Stocks Will Be Confined to Regulated Fisheries	139
	Planetary Ecosystems Will Suffer	143
	Glimpse 6-3: The Race to Lose Last	144
	Unused Bio-capacity Will Plunge	149
	Glimpse 6-4: Urban Mining of Metals	151
	Glimpse 6-5: Nature Limited to Parks	156
7	The Nonmaterial Future to 2052	160
	Smaller GDP: Milder Push against Global Limits	161
	Slower Growth in Productivity	162
	Tensions from Declining Consumption	162
	Prevalence of Short-Termism	164
	Stronger Government	166
	Forced Redistribution	167
	Megacity Environment	169
	Glimpse 7-1: Megacity Living and Externalization of the Mind	171
	Omnipresent Internet	174
	Disappearing Charms	175
	Better Health	177
	Glimpse 7-2: Individual Health from Public Care	178

Armed Forces Fighting New Threats	181
Glimpse 7-3: The Future of War and the Rise of Robots	182
Glimpse 7-4: Military for Sustainability	185
8 The Zeitgeist in 2052	190
Fragmentation: More Focus on Local Solutions	190
Glimpse 8-1: Scotland Joins New Europe	191
Glimpse 8-2: The End of Mediterranean Disparity	196
Glimpse 8-3: Slum Urbanism in Africa	200
A New Paradigm: Less Fixation with Economic Growth	203
Glimpse 8-4: Valuing the Whole	205
Modified Capitalism: A Stronger Role for Wise Government	210
Glimpse 8-5: Systemic CSR, or CSR 2.0	214
Collective Creativity: A Web of Inspired Individuals	218
Glimpse 8-6: Harnessing the Wisdom of the Crowd	218
Glimpse 8-7: Peak Youth Gaming for the Public Good	222
Intergenerational Equity: Widening the Lens	226

PART 3: ANALYSIS

9 Reflections on the Future	229
The Main Drivers	229
The Future in Graphs	231
The Cliff-Hanger	234
My Own Reactions	236
Eight Straight Questions about the Future	239
Wild Cards	250
The Path to 2052	254
Glimpse 9-1: Sudden Rush to Solar	256
Glimpse 9-2: Financing the Future	260
10 Five Regional Futures	265
Toward 2052: The United States	266
Glimpse 10-1: Bright Solar Future	270
Toward 2052: China	274
Glimpse 10-2: China—the New Hegemon	274
Toward 2052: OECD-less-US	283
Toward 2052: BRISE	288
Glimpse 10-3: Rich on Biofuels	292
Toward 2052: Rest of the World	296
11 Comparison with Other Futures	300
Testing against a Global Computer Model	300
Comparison with <i>The Limits to Growth</i> Studies	301
Overshoot and Collapse in Some Detail	307
Perspectives on the Second Half of the Twenty-First Century	313

Glimpse 11-1: The Fifth Cultural Step	314
Glimpse 11-2: The Third Flowering of the Tree of Life	318
12 What Should You Do?	323
What Global Society Ideally Should Have Done	325
Twenty Pieces of Personal Advice	328
Learn to Live with Impending Disaster without Losing Hope	351
Closing Words	353
Appendices	354
1. Summary	354
2. Definitions and Data Sources	356
3. Further Reading for the 2052 Glimpses	359
4. Extra Data on Fertility and Productivity	366
Notes	368
Index	377
