Subject Index

- accommodation 16, 19
accommodation theory 248–50, 646
achievement 450–1
 and attributions 335–9
 controllability 335
 development of 336, 338–9
 and gender 623–8
 internality–externality 335
 stability 335
acquisition–performance distinction 23
attention 23
 motivation 24
 production 24
 reciprocal determinism 24
 retention 23
activity 58–9, 472–3
adaptation 16, 612
additive principle 330
adolescence 425, 436, 439, 506, 520,
 534, 555–7
 attainment and aspirations 545–6
 and change 508–9
 cognitive/social cognitive
 developments in 511–13
 cohort changes 556
 and conflicts with parents 523–5
 defined 506–7
 and delinquency 564–75
 era, culture and 507–8
 female development 509–11
 and generation gap 520–1
 health problems 575–90
 and identity 515–19
 Jessor and Jessor's model of 561–3
 male development 511
 and peers in 525–30
 as period of storm and stress 515
 problems of 560–3, 590–1
 and prosocial behavior 436
 and pursuit of autonomy 521–3
 self-esteem in 514–15
 self-understanding in 513–14
 sexuality and social context 534–45
 and social comparison 528–9
 stereotypes of 560
 and work 548–56
adult egocentrism (myth of adult ideal)
 7–8
adulthood 596–7
 and achievement 623–8
 and affairs 617–18
 and attachment 604–8
 and community 618–20
 and development 597–8
 early 599; age 30 599, 601;
 entering 599; settling down
 599, 602; transition 599
 female seasons 600–2
 and friendship 616–17
 and marriage 608–11
 and parenthood 611–15
 and personal organization 603
 and prosocial behavior 436–7
 relationships 602–3, 604
 seasons of 598–600
 and siblings 616
 and social clock 603–4
 social development 652
 and speech 56
 and work 621–3, 628–9
