Preface	v
Contributors	vii
Acknowledgements	viii
1. Background	1
1.1 Magnitude of the problem	1
1.2 Disease and transmission	4
1.3 Treatment and prevention	4
1.4 Epidemiological basis for control	8
1.5 School-age children	9
1.6 Elements of a helminth control programme in schools	10
1.7 Sustainability	11
1.8 Targets	11
2. Planning	12
2.1 Collaboration between Ministry of Health and Ministry of Education	12
2.2 Situation analysis	12
2.3 Budget	12
2.4 Collection of baseline parasitological data	16
2.5 Analysis of the data collected	24
2.6 Participation of the community in the planning process	27
3. Implementation	29
3.1 Community involvement	29
3.2 Pilot phase—expansion phase	29
3.3 Drug procurement and storage	30
3.4 Training	33
3.5 Delivery of the intervention in schools	36
4. Monitoring	41
4.1 Objective of the monitoring process	41
4.2 Cost of the monitoring process	41
4.3 Suggested indicators	41
4.4 Process indicators	42
4.5 Parasitological indicators	45
4.6 Morbidity indicators	46
4.7 Additional indicators	48
5. Conclusions	51
