Introduction	5
---------------------	----------

THEORETICAL BACKGROUND	7
-------------------------------	----------

1 Theoretical background	9
---------------------------------	----------

- | | |
|---|----|
| 1.1 International classification of functioning, disability and health and its use in the education of students with disabilities | 9 |
| 1.2 Means of rehabilitation for children with disabilities .. | 15 |
| 1.3 Legislative framework – the Education Act, the Anti-Discrimination Act, the Act on Social Services..... | 27 |

STUDENTS WITH DISABILITIES	37
-----------------------------------	-----------

2 Students with disabilities with focus on cerebral palsy and associated disabilities	39
--	-----------

- | | |
|--|----|
| 2.1 Students with severe and multiple disabilities..... | 39 |
| 2.2 Students with cerebral palsy and associated disabilities | 45 |
| 2.3 Students with epilepsy at school | 62 |

STRATEGIES IN EDUCATION OF STUDENTS WITH SEVERE DISABILITIES	81
---	-----------

3 Strategies in education of students with severe disabilities	83
---	-----------

- | | |
|--|----|
| 3.1 Approaches to the education of students with severe disabilities in the Czech Republic and in Germany..... | 83 |
|--|----|

3.3	Specifics of education for children with severe disabilities and concomitant disabilities in a special primary school.....	94
3.3	Individual educational offer – examples of selected schools for students with visual and hearing impairment in Baden-Württemberg	113

RESEARCH PROJECT **125**

4 Approaches to the development of communication skills for adults with severe disabilities **127**

4.1	Formulation of the research topic and objectives.....	127
4.2	Research methodology	135
4.3	Analysis and interpretation of the quantitative research results	142
4.4	Findings and recommendations for theory and practice	156

Summary **161**

Bibliography **163**

List of Figures, Tables and Charts **177**

Name Index **181**

Subject Index **185**
