| Preface | v |
| Introduction | 1 |
| Severe falciparum malaria | 5 |
| Who is at risk? | 6 |
| General management | 7 |
| Nursing care | 10 |
| Specific antimalarial chemotherapy | 11 |
| Clinical features and management of complications in adults | 12 |
| Cerebral malaria | 12 |
| Anaemia | 16 |
| Renal failure | 16 |
| Hypoglycaemia | 17 |
| Fluid and electrolyte disturbances | 18 |
| Pulmonary oedema | 20 |
| Circulatory collapse ("algid malaria") | 22 |
| Abnormal bleeding and disseminated intravascular coagulation | 23 |
| High fever | 24 |
| Hyperparasitaemia | 25 |
| Malarial haemoglobinuria | 25 |
| Special clinical features of severe malaria and management of common complications in children | 27 |
| Severe malaria | 27 |
| Cerebral malaria | 30 |
| Anaemia | 34 |
| Respiratory distress (acidosis) | 36 |
| Hypoglycaemia | 38 |
| Dehydration | 39 |
| Antimalarial drugs | 40 |

| | |
|--|-----------|
| Special clinical features and management of severe malaria in pregnancy | 41 |
| Severe malaria | 41 |
| Hypoglycaemia | 43 |
| Pulmonary oedema | 44 |
| Anaemia | 44 |
| Antimalarial drugs | 45 |

| | |
|---|-----------|
| Diagnosis of malaria | 46 |
| Clinical diagnosis | 46 |
| Parasitological diagnosis | 46 |
| Haematological and biochemical findings | 48 |

| | |
|------------------------------|-----------|
| Prognostic indicators | 49 |
|------------------------------|-----------|

| | |
|--|-----------|
| Common errors in diagnosis and management | 54 |
|--|-----------|

| | |
|---------------------------------|-----------|
| Selected further reading | 56 |
|---------------------------------|-----------|

| | |
|---|-----------|
| Annex 1. Notes on antimalarial drugs | 57 |
|---|-----------|

| | |
|--|-----------|
| Annex 2. The Glasgow coma scale | 61 |
|--|-----------|

| | |
|---|-----------|
| Annex 3. A coma scale for children | 62 |
|---|-----------|

| | |
|--|-----------|
| Annex 4. Cannulating the femoral vein | 63 |
|--|-----------|

| | |
|--|-----------|
| Annex 5. Setting up an intra-osseous infusion in children | 65 |
|--|-----------|

| | |
|--|-----------|
| Annex 6. Measurement of central venous pressure | 68 |
|--|-----------|
