|--------------------------------------------------------------------|-----------|
| <b>Introduction</b>                                                | <b>1</b>  |
| <b>1 Survey of literature</b>                                      | <b>7</b>  |
| 1.1 A review of Aghion <i>et al.</i> 's model . . . . .            | 9         |
| 1.2 The empirical tests of Aghion <i>et al.</i> 's model . . . . . | 12        |
| 1.2.1 Testing all three predictions . . . . .                      | 13        |
| 1.2.2 The remaining empirical tests . . . . .                      | 21        |
| 1.3 Summary and discussion . . . . .                               | 27        |
| 1.3.1 Summary of the empirical literature . . . . .                | 27        |
| 1.3.2 Discussion of Aghion <i>et al.</i> 's model . . . . .        | 29        |
| <b>2 The basic model</b>                                           | <b>33</b> |
| 2.1 Structure of the model . . . . .                               | 34        |
| 2.2 Predictions of the model . . . . .                             | 40        |
| 2.2.1 Solving the model . . . . .                                  | 40        |
| 2.2.2 R&D expenditures . . . . .                                   | 41        |
| 2.2.3 The technology gap . . . . .                                 | 42        |
| 2.2.4 Empirical relevance of the results . . . . .                 | 46        |
| 2.3 Summary . . . . .                                              | 49        |
| <b>3 The prospect-theory model</b>                                 | <b>51</b> |
| 3.1 Structure of the model . . . . .                               | 52        |
| 3.2 The PT model with constant sensitivity . . . . .               | 57        |
| 3.2.1 Solving the model . . . . .                                  | 58        |
| 3.2.2 R&D expenditures . . . . .                                   | 60        |
| 3.2.3 The technology gap . . . . .                                 | 63        |
| 3.2.4 Empirical relevance of the results . . . . .                 | 66        |
| 3.3 The PT model with diminishing sensitivity . . . . .            | 70        |
| 3.3.1 R&D expenditures . . . . .                                   | 70        |
| 3.3.2 The technology gap . . . . .                                 | 75        |
| 3.3.3 Empirical relevance of the results . . . . .                 | 78        |
| 3.4 Summary . . . . .                                              | 79        |

|                                                              |            |
|--------------------------------------------------------------|------------|
| <b>4 Sensitivity analysis</b>                                | <b>81</b>  |
| 4.1 The basic model . . . . .                                | 81         |
| 4.1.1 R&D expenditures . . . . .                             | 82         |
| 4.1.2 The technology gap . . . . .                           | 84         |
| 4.1.3 Summary . . . . .                                      | 85         |
| 4.2 The prospect-theory model . . . . .                      | 86         |
| 4.2.1 Zero profit difference . . . . .                       | 86         |
| 4.2.2 The effect of individual parameters . . . . .          | 92         |
| 4.2.3 Positive profit difference . . . . .                   | 104        |
| 4.2.4 Summary . . . . .                                      | 112        |
| <b>Conclusion</b>                                            | <b>115</b> |
| <b>Bibliography</b>                                          | <b>119</b> |
| <b>List of Tables</b>                                        | <b>129</b> |
| <b>List of Figures</b>                                       | <b>132</b> |
| <b>A Endogenous profit difference</b>                        | <b>133</b> |
| A.1 Structure of the model . . . . .                         | 133        |
| A.2 Predictions of the model . . . . .                       | 136        |
| <b>B Netlogo codes</b>                                       | <b>139</b> |
| B.1 The basic model . . . . .                                | 139        |
| B.2 The PT model with constant sensitivity . . . . .         | 141        |
| B.3 The PT model with diminishing sensitivity . . . . .      | 144        |
| B.4 Sensitivity analysis . . . . .                           | 146        |
| B.5 The PT model with endogenous profit difference . . . . . | 151        |
| <b>Abstract</b>                                              | <b>155</b> |
