

## OBSAH

1	INTRODUCTION	6
2	SHORT HISTORY	6
3	GENERAL NOTIONS	7
4	CONSTRUCTION OF TACTILE SENSORS	9
	4.1 Tactile sensors based on conductive elastomer	9
	4.2 FSR tactile sensors	12
	4.3 Tactile strain gage sensors and transducers	13
	4.4 Tactile piezoelectric sensors	14
	4.5 Optical tactile sensors and transducers	16
5	USING OF TACTILE SENSORS AND TRANSDUCERS	19
	5.1 Using of tactile sensors and transducers in robotics	19
	5.2 Using tactile sensors and transducers in biomechanics	21
	5.2.1 Plantograph	21
	5.2.2 Sensor for stress field in bone	25
	5.2.3 Measure of pressure distribution in knee joint replacement	27
	5.2.4 Transducer for occlusion measurement	29
	5.2.5 Otto Bock hand replacement	30
	5.3 Smart textiles	30
	5.4 Tactile information as addition information source	31
	5.5 Non-traditional tactile information using	32
6	CONCLUSION	32
	References	33
