INTRODUCTION.....	4
CHAPTER 1. BRIEF HISTORY OF ECONOMICS AND NATURE PRICING.....	6
1.1. Economics, natural and environmental resources .....	6
1.2. Brief history of economics and nature pricing .....	8
1.3. Welfare economics and the environment .....	16
1.4. Environment, ethics and discounting the future .....	20
References.....	25
CHAPTER 2. NATURAL RESOURCE ECONOMICS .....	26
2.1. Time Factor (discounting) .....	26
2.2. Cost-benefit Analysis .....	32
2.3. Basic methods of natural resource pricing .....	34
2.4. Some elementary concepts from the field of valuation .....	37
References.....	39
CHAPTER 3 ENVIRONMENTAL (≈POLLUTION PREVENTION) ECONOMICS.....	40
3.1 Relations between economy and environment.....	43
3.2 Economic growth and environment.....	44
3.3. Economically optimal quality of environment.....	44
3.4. Pollution control policies .....	49
References.....	57
CHAPTER 4 NON-MARKET ENVIRONMENTAL RESOURCE ECONOMICS.....	60
4.1. Concepts of valuing non-market parts of nature .....	60
4.2. The concepts of economic valuation and economic value .....	65
4.3. Economic valuation and sustainable development.....	68
4.4. The basic methods of imputing values for non-market environmental goods and services.....	70
4.4.1. Methods of surrogate, related markets (indirect methods) .....	73
The method of hedonic pricing .....	73
4.4.2. Contingent valuation method (CVM).....	76
4.4.3. Methods of valuing environmental goods and services through non-demand curve approaches (through costs and damages).....	81
4.5. Valuation of biotopes through benefit-cost approach.....	85
4.5.1. Methodology of monetary valuations of ecological functions of the territory .....	85
4.5.2. Identifying ecological quality of environmental resource .....	86
4.5.3. Biotope restoration costs.....	88
4.5.4. Linking biotope values with CLC (Corine land-cover) (satellite images).....	88
4.5.5. Utilizing environmental values as economic instruments.....	92
4.5.6 Values of biotope types in the CR.....	95
4.6 Energy-water-vegetation-based method for valuation of ecosystem services.....	99
4.6.1. Results.....	105
4.6.2 Conclusions.....	106
References.....	107
Enclosure 1 Valuing damages and losses from construction of Klanovice golf resort .....	110
Enclosure 2 Examples of thermocamera images from different biotopes .....	113
