

A. YESTERDAY SIMULATION	7
Simulace včera a dnes	
<i>Karel KABEŠ...</i>	9
Yesterday Simulation of Physical Fields	
<i>Alina CZERWINSKA...</i>	13
Historické varhany a počítače (Historical Organs and Computers)	
<i>Evžen KINDLER...</i>	19
B. THEORY OF MODELLING AND SIMULATION	25
Algebraic Equations Roots and Multiple Arithmetics	
<i>Jiří KUNOVSKÝ - Jiří MATUŠ...</i>	27
Object Oriented Model of a Programming Language	
<i>Miroslav BENEŠ...</i>	33
Simulační modely schopné modifikovat samy sebe (Self-Modifying Simulation Models)	
<i>Miroslav SLEZÁK...</i>	39
Simulation Techniques in Bayesian Statistical Data Analysis	
<i>Petr VOLF...</i>	45
A Complete Discrete Probabilistic Enumeration in Opposite to the Monte Carlo Method	
<i>Josef ŠTĚPANEK...</i>	51
Konkurentní inženýrství: co říká k simulaci systémů (Concurrent Engineering: What it Tells to System Simulation)	
<i>Evžen KINDLER...</i>	57
Modelling the Spontaneous and Controllable Discrete Events in Discrete-Event Dynamic System	
<i>František ČAPKOVÍČ...</i>	63
An Algebraic Generalisation of Petri Nets	
<i>Gabriel JUHAS...</i>	69
Stochastic Simulation - an Output Data Analysis, Variance Reduction	
<i>Josef LAUBER...</i>	75
The FIDE System Flexibility in the Process of the Fuzzy System Design	
<i>Josef SCHWARZ...</i>	82
Simulace a simulátory neuronových sítí pro predikci časových řad	
<i>Miroslav ŠNOREK...</i>	88
Identification of Fuzzy Models Using Genetic Algorithms	
<i>Pavel OŠMĚRA - Ivan ŠIMONÍK - Miroslav POKORNÝ - Zbyszek DROBISZ...</i>	92
Model of the Decision Support System for Multicriterial Project Selection	
<i>Jindřich KLAPKA...</i>	97
Identification and Modelling of Mechanical Dynamic Systems	
<i>Jaromír MACA - Juraj URČÍČEK - Milan MACA...</i>	103
Improving Statistical Tests with Use of Simulation Methods	
<i>Maciej GORKIEWICZ...</i>	109
Simulation of Basic Manifestations of the Fundamental Law of the Universe - the Law of Unity and Conflict of Opposites	
<i>Yuri M. GORSKY, Irina A. KUSNETSOVA, Alexander V. KUKHTA...</i>	115
Multicriterial Mechanism of Generalized Interval Choice	
<i>R. P. AGAEV...</i>	123

A Max-Plus Algebra Approach in Modelling and Simulation of Queuing Networks	
<i>Nikolai K. KRIVULIN...</i>	127
Tuning Genetic Algorithm for Mapping Tasks onto Multiprocessor Systems	
<i>Grzegorz DOBROWOLSKI - Edward NAWARECKI...</i>	133
C. SIMULATION SOFTWARE	141
Modelováním podporovaná grafika	
<i>Ivo ŠERBA...</i>	143
Networked Artificial Vehicle Driver Simulator	
<i>Richard N. ZOBEL - M. J. RICHARDSON - D. SINGERMAN...</i>	147
Towards an Automatic Simulation Program Parallelization	
<i>Milan ČEŠKA...</i>	153
Multiple Arithmetic and Modern Taylor Series Method	
<i>Jiří KUNOVSKÝ...</i>	159
Grafické uživatelské rozhraní	
<i>Jaroslav JANOŠ...</i>	164
T9000 Trasputer and its Advantages	
<i>Viktor NĚMEC...</i>	170
Methods of Simulation System Testing	175
<i>Petr PERINGER</i>	
Virtual Time for Parallel Simulation	
<i>Petr HANÁČEK...</i>	181
PIN - the Language for Paralel/Distributed Environment	
<i>Petr PŘIKRYL...</i>	187
Optimization in Simulation Experiments	
<i>Zdena RABOVA - Jaromír BUMBALĚK...</i>	193
Educational Simulation System	
<i>Jiří DOUŠA...</i>	199
Simulační jádro v C++	
<i>Hana RUDOVÁ...</i>	205
Prostředek pro funkcionální programování v jazyce C	
<i>Pavel HEROUT - Stanislav RACEK...</i>	211
Problematika modelování diskretních přenosů v blokově orientovaném simulačním programu	
<i>Radim FÁRANA...</i>	217
An Estimation of the Real Speedup of Parallelized Computation in a Multi-User Environment	
<i>Stanislav RACEK - Pavel HEROUT...</i>	221
A Shared-Memory Parallel Computer Emulator	
<i>Marek ANDRUSZKIEWICZ - Jan KWIATKOWSKI...</i>	227
The PNTalk Language and System	
<i>Vladimír JANOUŠEK...</i>	233
D. INFORMATION SYSTEM MODELLING AND SIMULATION IN ECONOMY	239
Využitie simulačných metód pri projektovaní rozsiahlych informačných systémov	
<i>Milan ŠUJANSKÝ - Zdeněk HAVLICE - Henrieta TELEPOVSKÁ - Jan GENČI...</i>	241
Modelling and Analysis in the Data Space	
<i>...</i>	247

Object Models of Information Systems	252
<i>Tomáš HRUŠKA...</i>	...
Algebrý pro zpracování dotazů v OO DBS	258
<i>Jiří HRONEK...</i>	...
G2 - Model of Information Systems	264
<i>Tomáš HRUŠKA...</i>	...
Evaluation of Commitments of the Enterprises from Point of View Environmental Protection	270
<i>Vladimír JEHLÍČKA - Jana KUBANOVA...</i>	...
Simulation Intractive Time-Table Planner for Universities	276
<i>Veronika STOFFOVA - Marian HORVAI...</i>	...
Aplikace dynamického modelování v reengineeringu informačních procesů firmy (Application of Dynamic Modelling to a Firm Information Processes Reengineering)	282
<i>Jiří SCHINDLER...</i>	...
Graphical Support of Defining Models of the Queuing Systems in Economics	288
<i>Petr ŠTASTNÝ...</i>	...
The Simulation Model of the Company for Designing Its Growth Strategy	294
<i>Antoni GORYL - Zbigniew JEŃDRZEJCZYK - Bogusław WAŚNIK...</i>	...
Services Structures at Intelligent Networks	300
<i>Adam GRZECH...</i>	...
Model of a Low-Cost Replicated Data Synchronization in a Wide-spread Decentralized DB	306
<i>Petr HAVLIČEK - Martin ZAUNER - Robert SPIEGEL - Petr KOPACEK...</i>	...
Využitie simulácie pre strategické plánovanie banky	314
<i>Ružena APALOVICHOVA...</i>	...
E. CONTROL SYSTEM MODELLING	321
Optimalizácia parametrov priameho číslcového riadenia pomocou simulácie (Optimalization Parameters of Controllers by Modeling)	323
<i>Karol KOSTUR...</i>	...
Model řízení a stabilizace systému s dynamicky laděným gyroskopem	331
<i>Vladimír ŘEŘUCHA - F. DOHNAL...</i>	...
A New Control Law Development by Simulation for Sensorless Synchronous Motor Drive with Prescribed Closed-Loop Dynamics	337
<i>Stephen J. DODS - Ján VITTEK - Mikuláš ALEXIK...</i>	...
Simulation Models for Evaluation of Adaptive Algorithm	345
<i>Mikuláš ALEXIK - Ján VITTEK...</i>	...
Fuzzy Control for Tractor Tillage	351
<i>Pavel JURA - František ŠOLC...</i>	...
Comparison of Classical and Simulation Control System Design	356
<i>František ŠOLC...</i>	...
Closed-Loop Controlled Motion System with Non-Regular Different Sampling	361
<i>Branislav DOBRUCKÝ - Lubomír JOZEFAK - Jozef DUBOVSKÝ...</i>	...
Applications of Neural Networks in Modelling and Simulation	367
<i>Ján ČIBULKA...</i>	...
Time-Related Aspects in Object Approach to Real-Time System Design	373
<i>Ivona DUBILEWICZ - St. BOCHNAK - A. WÓJCIK...</i>	...
On the Optimal Allocation and Service in an Operation System	379
<i>Karol WOŁKOWINSKI...</i>	...
