Preface	1
<b>Introduction</b>	3
Patterns of infection and resistance	3
Management and control of sexually transmitted diseases	4
<b>Gonorrhoea</b>	6
<b>Chlamydial infections</b>	11
Lymphogranuloma venereum	11
Other chlamydial infections	12
<b>Vaginitis</b>	14
Candidosis	14
Trichomoniasis	15
Bacterial vaginosis	16
<b>Pelvic inflammatory disease</b>	17
<b>Syphilis</b>	19
<b>Genital herpes</b>	25
<b>Chancroid</b>	27
<b>Granuloma inguinale</b>	29
<b>Genital warts</b>	31
<b>HIV infection, AIDS and associated infections</b>	33
HIV infection	33
General features of associated infections	40
Respiratory disease	41
Neurological disorders	45
Ophthalmological complications	48
Febrile illness	49
Diarrhoeal disease	50
Mucocutaneous and cutaneous eruptions	52
<b>Drugs</b>	54
aciclovir	54
amphotericin B	55
benzylpenicillins	57
calcium folinate	58
ceftriaxone	59
ciprofloxacin	60
codeine	61
doxycycline	62
erythromycin	64
fluconazole	65
ganciclovir	66
ketoconazole	67

## Contents *(continued)*

metronidazole	69
miconazole	70
nystatin	71
pentamidine	72
podophyllum resin	73
pyrimethamine	74
spectinomycin	75
sulfadiazine	76
sulfamethoxazole/trimethoprim	78
tetracycline	80
<b>Annex</b>	82
Flow-charts for the management of commonly encountered syndromes	
<b>Index</b>	91
