References	25
<hr/>	
Chapter 3	
Legal and societal factors affecting abortion care	27
Laws and regulations	27
Sociocultural and religious perspectives	29
References	31
<hr/>	
Chapter 4	
Planning for abortion care	32
Strategic planning	32
Problem identification and definition	33
Setting objectives	37
Interventions	37
Reference	39
<hr/>	
Chapter 5	
Initial assessment in emergency abortion care	40
Initial assessment	40

Contents

Complications of abortion requiring emergency care	43
References	47
<hr/>	
Chapter 6	
Methods of uterine evacuation	48
First-trimester emergency methods	48
Early second-trimester emergency methods	51
Late second-trimester emergency methods	51
First-trimester elective procedures	51
Second-trimester elective procedures	52
Cervical dilatation	53
References	53
<hr/>	
Chapter 7	
Additional clinical elements of abortion care	55
Anaesthesia, sedation and analgesia	55
Tissue inspection and disposal	57
Postoperative monitoring	58
Discharge instructions	58
Post-abortion family planning	60
Infection control	66
Management of rhesus-negative abortion patients	68
Laboratory requirements	68
References	69
Additional reading	70
<hr/>	
Chapter 8	
Information and counselling for the patient	71
Needs for medical information	71
Counselling	73
References	76
<hr/>	
Chapter 9	
Facilities and equipment	77
Facilities for emergency abortion care	77
Facilities for elective abortion	82
Outpatient care	82
Caseload considerations	83
Patient flow	83
Equipment and drugs for emergency and elective abortion care	84
<hr/>	

Chapter 10	
Personnel: tasks, training and supervision	89
Tasks in abortion care	89
Training	90
Staff supervision	94
Staff attitudes	95
References	96
<hr/>	
Chapter 11
