Glossary of terms	v
Executive summary	1
Introduction	3
Background	5
Benefits of breastfeeding in the general population	5
Anti-infective properties of breast milk of HIV-infected women	5
Benefits of breastfeeding for children born to HIV-infected mothers	6
Mortality among HIV-infected breastfeeding mothers	7
Mother-to-child transmission	8
HIV infection in women	8
Rates of mother-to-child transmission and risk factors	8
Prevention of mother-to-child transmission	9
HIV transmission through breastfeeding	11
Rates of breastfeeding transmission	11
Mechanisms of breastfeeding transmission	11
Timing of postnatal transmission	12
Late postnatal transmission	12
Factors associated with risk of transmission through breastfeeding	13
Maternal factors	13
Infant factors	14
Preventing transmission through breastfeeding	16
Primary prevention	16
Infant feeding options designed to prevent mother-to-child transmission	16
Replacement feeding	17
Exclusive breastfeeding with early cessation	17
The other breast-milk options	18
Current or planned research	19
Conclusion	20
