

# Contents

## 1 Introduction

- 1 Half-linear PDE with  $p$ -Laplacian
- 2 Basic facts from oscillation theory
- 3 Riccati transformation

## 2 Two terms PDE with $p$ -Laplacian

- 1 Introduction
- 2 Hartman–Wintner type oscillation criteria
- 3 Hille and Nehari type oscillation criteria
- 4 Oscillation and weighted integral averages
- 5 Oscillation in general domains
- 6 Oscillation criteria on half-plane

## 3 Three terms PDE with $p$ -Laplacian

- 1 Introduction
- 2 Riccati inequality
- 3 Oscillation of three terms half-linear equation
- 4 Interval type oscillation criteria

## 4 Three terms elliptic half-linear PDE

- 1 Introduction
- 2 Reduction into ODE
- 3 Applications

## 5 Related equations and inequalities

- 1 Inequality with  $p$ -Laplacian
- 2 Equation with degenerated  $p$ -Laplacian
- 3 Variational technique and nonradial criteria
