Contents

First Day

Invited talk on Humanoid Robot Research and Its Applications
Professor Atsuo Takanishi, Waseda University, Japan 10

Invited talk on EUROBOT
Veronique Raoul, Eurobot Associtation, France 11

Adaptive Robot to Person Encounter by Motion Patterns
Hans Jorgen Andersen, Thomas Bak, Mikael Svenstrup 13

Map Reconstruction based on Stereo Camera Images for Motion Planning
Joel Bout, Thomas Ihme, Kai Wetzelsberger 24

Design of Multi-Segment Humanoid Robot Foot
Branislav Borovac, Sinisa Slavic 35

Software-Hardware Mapping in a Robot Design
Pavol Jusko, David Obdrzalek, Tomas Petrusek 42

Powerful Hardware and Visual Programming for Mobile Robot Applications
Wolfgang Guenther, Holger Kenn, Hans-Juergen Hilscher, Stefan Enderle 52

The Huggable Robot Probo, a Multidisciplinary Research Platform
Kristof Goris, Jelle Saldien, Dirk Lefeber 63

Comparison of PID and Fuzzy Logic Controllers in Humanoid Robot Control of Small Disturbances
Miomir Vukobratovia, Branislav Borovac, Mirko Rakovia 69

A Java-based Framweork for the Programming of Distributed Systems for Mobile Robots
Daniel Westhof, Hagen Stanek 79

Wheeeler - hypermobile robot
Grzegorz Granosik, Krzysztof Mianowski, Michal Pytasz 94

The qfix Robot Kits
Stefan Enderle 108

Pilot Study of Person Robot Interaction in a Public Transit Space
Mikael Svenstrup, Thomas Bak, Ouri Maler, Hans Jorgen Andersen, Ole B. Jensen 120

Second Day

Ten Years of Experience with Eurobot; Achievements, Lessons Learned and General Comments
Jean-Daniel Dessimoz 132

Navigation and Control Systems of an Autonomous Robot Developed for the Eurobot 2007 Contest
Domokos Kiss, Daniel Varga, David Vekony, Gabor Tevesz 144

A Robot for Mission to Mars
Ondrej Fiser, Jan Chudoba, Tomas Krajnik 157

Robots are All About Looks
Eric Dalgliesh 167

Scarabaeus: A Walking Robot Applicable to Sample Return Missions
Sebastian Bartsch, Steen Planthaber 178

The Fly Algorithm for Robot Navigation
Rodrigo Montufar-Chaveznava, Monica Perez-Meza, Ivette Caldelas 184

Design And Development of a Waste Cleanup Service Robot
Catalin Buiu 194

Cybertech Robotic Competition
Inaki Navarro, Ramon Galan 203

Robotics Exhibits for Science Centres
Orazio Miglino, Michaela Ponticorvo, Angelo Rega, Benjamini Di Martino 209

Quantitative Cognitics and Agility Requirements in the Design of Cooperating Autonomous Robots
Jean-Daniel Dessimoz, Pierre-Francois Gauthey 221

Assembly of fuel cells and stacks with robots
P. Konold, A. Muminovic, M. Wehrheim 231

Integration of percussion robots "RobotMusic" with the DataSuit "Body Suit": Technological Aspects and Concepts
Suguru Goto, Fuminori Yamasaki 244

Grape - Graphical Robot Programming for Beginners
Stefan Enderle 249

Third Day

Traiano: Educational (but not only) opportunity for Master Students Contribution to Eurobot 2008 Conference
A. Mancini, E. Frontoni, A. Cesetti, A. Gabrielli, M. Cavaletti, P. Zingaretti, M. Zamponi, M. Babini, R. Donnini, M. Gallieri, V. Minnetti, E. Torta, M. Tinaro, D. Tina, P. Raspa, R. Stronati, D. Mancini, S. Longhi 262

Logion - A Robot Which Collects Rocks
Stanislav Basovnik, Martin Dekar, Pavol Jusko, Andrej Mikulik, David Obdrzalek, Radim Pechal, Tomas Petrusek, Roman Pitak 276

Participation in international robot competitions as a way of potentiating basic professional abilities
Julio Pastor, Irene Gonzales, F. J. Rodriguez 288

Invited talk on Human-Centered Robotics
Professor Oussama Khatib, Standford University, USA 298

Invited talk on New Man-Machine Interaction concepts: Virtual Reality meets Robotics
Professor Juergen Rossmann, RWTH Aachen, Germany 299

Invited talk on Robotic Exploration of Planetary Surfaces - Science Objectives, Instrumentation, and Results from the Moessbauer Spectrometers on the Mars-Exploration Rovers
Dr. Goestar Klingelhoefer, Johannes Gutenberg University Mainz, Germany 300
