Foreword	v
Acknowledgments	vii
1. Introduction	1
1.1 Research question	1
1.2 Projection approach	2
1.3 Relevance of education	4
2. Fertility	6
2.1 Rural/Urban fertility differentials	10
2.2 Fertility and women's education	13
2.3 Fertility and women's education in North Africa	15
2.4 Fertility and family-planning policies	17
2.5 Future prospects	18
3. Mortality	20
4. Education	24
4.1 Education and development	24
4.2 Educational systems and policies in North Africa	27
5. Scenario Assumptions for the Next 50 Years	47
5.1 Base year parameters	49
5.2 Scenario assumptions	50
Color Plates	59
6. Analyses of Projection Results	65
6.1 Population size	65
6.2 Age structure	71
6.3 Educational composition	72
7. Outlook	74
7.1 Probabilistic population projections of North Africa to 2100	74
7.2 Possible future migration from North Africa to Europe	79
8. Conclusion: Population, Education, and Sustainable Development	82
