

SERIES CONTENTS

The IFLA Green Monograph Knowledge series offers accessible, concise, yet scholarly produced studies. The books are research-based, current, practical. Written by leading scholars, the books in this series deliver expert overviews of subjects in areas from the cultural and the historical to the scientific and the technical.

Preface ix

In this book we have tried to opinions, methodologies, the imperatives and the descriptions. Much longer versions by some of the journal articles are available online at www.ifla.org.
