

CONTENTS

Thirty years since February 1948 — Thirty years of development of Czechoslovak parasitology	
EDITORS	97
Die Sarkosporidiose des Rehwildes (<i>Capreolus capreolus</i> L.)	
K. BLAŽEK, J. SCHRAMLOVÁ, R. IPPEN, A. KOTRLÝ	99
Fatal experimental <i>Babesia microti</i> infections in the Norwegian lemming, <i>Lemmus lemmus</i> (L.)	
R. WIGER	103
Latex reaction with toxoplasma antigen	
V. BOZDĚCH	109
Redescription of the nematode <i>Philometra obturans</i> (Prenant, 1886) with a key to the philometrid nematodes parasitic in European freshwater fishes	
F. MORAVEC	115
On some theoretical and practical aspects of population variability in helminths	
J. K. MACKO	125
Some aspects of monogenean existence	
B. I. LEBEDEV	131
Scanning electron microscopy of <i>Setaria labiatopapillosa</i> (Alessandrini, 1848) from cattle of Kazakhstan	
Z. ŽDÁRSKÁ, V. A. SCHOLL	137
Tissue reaction of the liver of cattle to an artificial or natural infection with <i>Cysticercus bovis</i>	
J. ŠTĚRBA, I. DYKOVÁ	143
Histochemistry and fine structure of the bladder tegument of a larval <i>Multiceps endothoracicus</i>	
D. HULÍNSKÁ, V. M. FEDOSEENKO, L. I. LAVROV	149
Investigations on the fauna of beds in flats, children's sanatoria and old-age homes	
K. SAMŠIŇÁK, E. VOBRÁZKOVÁ, V. ŠPIČÁK	157
Natural infection of the tick <i>Dermacentor reticulatus</i> (Fabr.) with the microsporidian <i>Nosema slovacae</i> Weiser et Řeháček in Slovakia	
J. ŘEHÁČEK, J. WEISER	165
Autogeny in <i>Piophilila casei</i> (Diptera, Piophilidae)	
J. ZUSKA	173
Microscopical anatomy of larva of <i>Cheladonta costulata</i> (Acarina: Trombiculidae) II. Body tegument and digestive system	
J. SCHRAMLOVÁ	179
Short Communications	
Idioxenia versus synoxenia in ectoparasites	
V. ČERNÝ	183
Arbovirus isolations from mosquitoes in South Slovakia	
V. DANIELOVÁ, D. MÁLKOVÁ, J. MINÁŘ, B. REHSE-KÜPPER, Z. HÁJKOVÁ, J. HALGOŠ, L. JEDLIČKA	187
Notes	113, 141, 148, 177, 191
Book Reviews	124, 147, 156, 163, 171, 185
