

CONTENTS

Contribution to the serological diagnosis of sarcocystosis Ž. ČERNÁ, I. KOLÁŘOVÁ	289
Hematological, splenic and adrenal changes associated with natural and experimental infections of <i>Trypanosoma lemmi</i> in the Norwegian lemming, <i>Lemmus lemmus</i> (L.) R. WIGER	295
The development of the nematode <i>Philometra obturans</i> (Prenant, 1886) in the intermediate host F. MORAVEC	303
Records of some little known nematodes from Indian fishes N. C. DE, M. GHOSH, G. MAJUMDAR	317
Some controversial problems in classification of monogeneans A. V. GUSSEV	323
Redescription of <i>Gyrodactylus latus</i> Bychowsky, 1933 and other two new species of the genus <i>Gyrodactylus</i> from fishes of the genus <i>Cobitis</i> L. R. ERGENS	335
Fine structure of cells and tissues of <i>Cysticercus tenuicollis</i> aged 13 and 16 days D. HULÍNSKÁ	339
Tissue reaction of the skeletal muscles of cattle both to a spontaneous and experimental infection with <i>Cysticercus bovis</i> J. ŠTĚRBA, I. DYKOVÁ	347
Histochemistry of tissue reaction in skeletal muscles of cattle experimentally infected with <i>Cysticercus bovis</i> Z. ŽĎÁRSKÁ, B. MACHNICKA	355
A new host, <i>Simulium argyreatum</i> Meig., for the cytoplasmic polyhedrosis virus of blackflies in Czechoslovakia J. WEISER	361
Short Communications	
Contribution to the problem of the so-called nonpathogenic amoebae in the intestine of man L. ČERVA, V. KLIMENT	367
Spontaneous infection of white laboratory mice with <i>Emmonsia crescens</i> Emmons et Jellison, 1960 under natural conditions J. PROKOPIČ, J. ŠTĚRBA	371
25th anniversary of <i>Folia parasitologica</i> V. ČERNÝ, B. NOVOTNÁ	375
Notes	345, 365
