

CONTENTS

Aspects of evolutionary parasitology B. I. LEBEDEV	97
Blood parasites of birds in Central Europe. 4. <i>Trypanosoma</i> , „ <i>Atoxoplasma</i> “, microfilariae and other rare Haematozoa J. KUČERA	107
First detection of <i>Cryptosporidium</i> sp. oocysts in calf faeces by floatation method I. PAVLÁSEK	115
Proposal of a new systematic arrangement of nematodes of the family Capil- lariidae F. MORAVEC	119
Parasitological investigation of children's sandboxes and dog faeces from public areas of housing developments in Prague J. VALKOUNOVÁ	133
<i>Neoaplectana bibionis</i> Bovien, 1937, an obligate parasite of insects isolated from forest soil in Czechoslovakia Z. MRÁČEK, J. GUT, S. GERDIN	139
Pathology of neonatal infection of calves with <i>Cysticercus bovis</i> K. BLÁŽEK, J. SCHRAMLOVÁ, J. KURSA	147
Comparative electron microscopical and cytochemical studies on the cuticle and the hypodermis of <i>Trichinella nativa</i> (Britov et, Boev, 1972) and <i>T. pseudo- spiralis</i> (Garkavi, 1972) D. HULÍNSKÁ B. SHAIKENOV	159
Laelapidae (Acarina) of some small mammals from Toro Game Reserve, Uganda F. DUSBÁBEK, M. DANIEL, W. M. TILL	167
Small terrestrial mammals as reservoirs of leptospirae in the Sava valley (Croatia) B. BORČIĆ, H. KOVAČIĆ, Z. ŠEBEK, B. ALERAJ, N. TVRKOVIĆ	177
Short Communications	
A case of cutaneous leishmaniasis with the isolation of the parasite M. GIBODA, M. MALOVESKÁ	183
Sensory endings and microvilli in the tegument of cercaria of <i>Eurytrema pancrea- ticum</i> as revealed by scanning electron microscopy Z. ŽDÁRSKÁ	187
A contribution to the polymorphism of <i>Hypodectes propus</i> (Nitzsch, 1861) males (Acarina: Sarcoptiformes) K. SAMŠIŇÁK	191
Notes	165, 189
News	106, 157, 185
