

CONTENTS

Parasites of the recently established round goby (<i>Neogobius melanostomus</i>) and tubenose goby (<i>Proterorhinus marmoratus</i>) (Cottidae) from the St. Clair River and Lake St. Clair, Michigan, USA N.M. Pronin, G.W. Fleischer, D.R. Baldanova, S.V. Pronina	1 – 6
Intense infections with a variant of <i>Myxobolus procerus</i> (Myxosporea) in muscle of trout-perch (<i>Percopsis omiscomaycus</i>) in Duluth Harbor, Lake Superior D. Cone, T. Eurell, R. Axler, D. Rau, V. Beasley	7 – 11
Endoparasitic helminths of the European eel, <i>Anguilla anguilla</i> , from four disconnected meanders from the rivers Leie and Scheldt in western Flanders, Belgium M. Schabuss, R. Konecny, C. Belpaire, F. Schiemer	12 – 18
The distribution of the metacercariae of <i>Diplostomum phoxini</i> in the brain of minnows, <i>Phoxinus phoxinus</i> I. Barber, D.W.T. Crompton	19 – 25
Spermatozoon and spermiogenesis in <i>Mesocoelium monas</i> (Platyhelminthes: Digenea): ultrastructure and epifluorescence microscopy of labelling of tubulin and nucleus C. Iomini, I. Mollaret, J.-L. Albaret, J.-L. Justine	26 – 32
Some nematodes of freshwater fishes in Venezuela F. Moravec, A. Prouza, R. Royero	33 – 47
New data on the morphology and systematic status of <i>Klossinemella iheringi</i> (Nematoda: Atractidae) from Amazonian serrasalmid fish F. Moravec, V.E. Thatcher	48 – 54
<i>Toxocara canis</i> (Nematoda: Ascaridae): the fine structure of the oviduct, oviduct-uterine junction and uterus M. Bruňanská	55 – 61
Two hemocyte populations in <i>Triatoma infestans</i> : ultrastructural and lectin-binding characterization V. Hypša, L. Grubhoffer	62 – 70
Carbohydrate-binding specificities and physico-chemical properties of lectins in various tissue of phlebotomine sandflies L. Palánová, P. Volf	71 – 76
Attempts to immunize chickens against <i>Cryptosporidium baileyi</i> with <i>C. parvum</i> oocysts and Paracox™ vaccine T. Sréter, S. Hornok, I. Varga, L. Békési, Z. Széll	77 – 80
Announcement	61
