

CONTENTS

<i>Entamoeba histolytica</i> : surface proteolytic activity and its relationship with <i>in vitro</i> virulence L.M. Araiza-Orozco, E.E. Avila, M. L. Muñoz, S. Arias-Negrete	161-167
<i>Eimeria nyctea</i> sp. n. (Apicomplexa: Eimeriidae), a new parasite species from the snowy owl, <i>Nyctea scandiaca</i> J. Volf, B. Koudela, D. Modrý	168-170
Effect of low and high temperatures on infectivity of <i>Encephalitozoon cuniculi</i> spores suspended in water B. Koudela, Š. Kučerová, T. Hudcovic	171-174
Globidia infection in the gut of an Australian gecko <i>Heteronotia binoei</i> I. Paperna	175-178
Transmission of the monogenean <i>Gyrodactylus salaris</i> A. Soleng, P.A. Jansen, T.A. Bakke	179-184
Morphology and taxonomy of <i>Stomylotrema</i> (Digenea: Stomylotrematidae) representatives from ciconiiform and podicipediform birds in Cuba J.K. Macko, M. Špakulová, J.C. Casanova	185-190
Ultrastructure of spermiogenesis of <i>Phyllobothrium lactuca</i> (Cestoda, Tetrphyllidea, Phyllobothriidae) A. Sène, C.T. Bâ, B. Marchand	191-198
Ultrastructure of glands in a scutariellid (Platyhelminthes) and possible phylogenetic implications C. Iomini, M. Ferraguti, J.-L. Justine	199-203
On the development and life cycle of <i>Camallanus anabantis</i> (Nematoda: Camallanidae), a parasite of the climbing perch, <i>Anabas testudineus</i> N.C. De	205-215
<i>Myleusnema brasiliense</i> sp. n. (Nematoda: Kathlaniidae), a new intestinal parasite of the serrasalmid fish <i>Myleus</i> sp. in Brazil F. Moravec, V.E. Thatcher	216-220
Aspects of the morphology and a review of the taxonomic status of three species of the genus <i>Chonopeltis</i> (Crustacea: Branchiura) from the Orange-Vaal and South West Cape River Systems, South Africa L.L. Van As, J.G. Van As	221-228
A redescription of the adult male and pranzia of <i>Gnathia africana</i> Barnard, 1914 (Crustacea, Isopoda, Gnathiidae) from southern Africa N.J. Smit, J.G. Van As, L. Basson	229-240
Book review	204
