Thematic Issue

## Microsporidia of Invertebrate and Vertebrate Hosts

Contributions from the NATO Advanced Research Workshop 'Emergent Pathogens in the 21st Century: First United Workshop on Microsporidia from Invertebrate and Vertebrate Hosts' České Budějovice, 12–15 July 2004

### Editorial Introduction

- The First United Workshop on Microsporidia from Invertebrate and Vertebrate Hosts  
L.M. Weiss ..... 1–7

### Review Articles

- Comparative genomics of microsporidia  
P.J. Keeling, N.M. Fast, J.S. Law, B.A.P. Williams, C.H. Slamovits ..... 8–14
- Post-genomics of microsporidia, with emphasis on a model of minimal eukaryotic proteome: a review  
C. Texier, D. Brosson, H. El Alaoui, G. Méténier, C.P. Vivarès ..... 15–22
- Evolutionary strategies and adaptations for survival between mosquito-parasitic microsporidia and their intermediate copepod hosts: a comparative examination of *Amblyospora connecticus* and *Hyalinocysta chapmani* (Microsporidia: Amblyosporidae)  
T.G. Andreadis ..... 23–35
- How do microsporidia invade cells?  
C. Franzen ..... 36–40
- Review of microsporidia-mosquito relationships: from the simple to the complex  
J.J. Becnel, S.E. White, A.M. Shapiro ..... 41–50
- A review of the development of two types of human skeletal muscle infections from microsporidia associated with pathology in invertebrates and cold-blooded vertebrates  
A. Cali, L.M. Weiss, P.M. Takvorian ..... 51–61
- Review of the sequential development of *Loma salmonae* (Microsporidia) based on experimental infections of rainbow trout (*Oncorhynchus mykiss*) and Chinook salmon (*O. tshawytscha*)  
M.L. Kent, D.J. Speare ..... 63–68
- Microsporidian xenomas in fish seen in wider perspective  
J. Lom, I. Dyková ..... 69–81

### Research Articles

- Public health importance of *Brachiola algerae* (Microsporidia) – an emerging pathogen of humans  
G.S. Visvesvara, H. Moura, G.J. Leitch, D.A. Schwartz, L.X. Xiao ..... 83–94
- Microgemma vivaresi* (Microsporidia: Tetramicridae): host reaction to xenomas induced in sea scorpions, *Taurulus bubalis* (Osteichthyes: Cottidae)  
E.U. Canning, A. Curry ..... 95–102
