

## Contents

<b>Monitoring and Crisis system of radiation safety</b> <i>Juraj Bartok, Peter Borovanský, Juraj Mačica, Martina Petrovičová</i> .....	9
<b>Approximation of European Union Legislation on Medical Exposure in Slovak Republic</b> <i>RNDr. Karol Böhm, Public Health Authority of the Slovak Republic</i> .....	13
<b>Management of patient and staff doses in interventional radiology</b> <i>Bohm Karol, Nikodemová Denisa, Šalát Dušan, Drabová Dominika</i> .....	16
<b>Estimated risks of radon-induced lung cancer by two-mutation model for different exposures in mines and in homes.</b> <i>Radoslav Böhm, Denisa Nikodémová, Karol Holý</i> .....	20
<b>Risk analysis of brachytherapy events</b> <i>Pavla Buřičová, Helena Žáčková, Lenka Hobzová, Josef Novotný, Anna Kindlová</i> .....	23
<b>Building materials as the source of radiation load of Slovak population</b> <i>Cabáneková Helena Slovak Medical University</i> .....	26
<b>Education of medical radiation physicists in the Czech Republic</b> <i>Tomas Cechak, Pavel Dvorak, Ladislav Musilek</i> .....	29
<b>Improvement of national standard of X radiation</b> <i>Jaroslav Compel, Slovak Institute of Metrology</i> .....	32
<b>Testing of personal dosimetry systems</b> <i>Jaroslav Compel, Slovak Institute of Metrology Jozef Dobrovodský, Slovak Institute of Metrology</i> .....	33
<b>Data exchange between the <i>este</i> systems at the SÚJB Prague and at the BMLFUW Vienna in case of emergency.</b> <i>Peter Čarný, Věra Starostová, Peter Hofer</i> .....	34
<b>New functions of the <i>este</i> system – new possibilities for emergency response.</b> <i>Peter Čarný</i> .....	36
<b>The amount of <sup>137</sup>Cs in chosen parts of food chains from localities in the East of Slovakia</b> <i>Andrea Čipáková</i> .....	40
<b>Personal monitoring in the mine</b> <i>Rožná I. Ing. Jiří Čumpl, Zdeněk Gregor</i> .....	44
<b>Alanine-EPR dosimetry system for high industrial as well radiotherapeutic dose measurement</b> <i>J. Dobrovodský, J. Bukovjan</i> .....	46
<b>Verification of methodology for QUASAR phantoms used for quality assurance of nondosimetric parameters of 3D treatment planning systems</b> <i>Petra Dostálová, Irena Pavlíková, Ivana Horáková, Milan Zouhar, Jana Bedrošová, Helena Žáčková, Daniela Ekendahl</i> .....	47
<b>Development of radiation protection in intraoral dental radiography during the years 2002 – 2005 – analysis of postal audits results</b> <i>Petra Dudlová, Leoš Novák</i> .....	51
<b>Decision making process and emergency management in different phases of a nuclear accident</b> <i>Tatiana Ďúranová, VUJE, a.s.</i> .....	55
<b>Constancy Tests Radiography X-ray Devices with CR system</b> <i>Milena Durdíková, Marcela Žáková</i> .....	61
<b>Reference radiation fields of dosimetry quantities standards</b> <i>N. Durný, J. Bukovjan, V. Jenis, T. Farkaš, J. Dobrovodský</i> .....	63
<b>General Programs of Specialized Education of Radiological Physicists in the Czech Republic</b> <i>Pavel Dvořák, Libor Judas, Vít Richter, Leoš Novák</i> .....	64
<b>Nuclear detection systems in traffic</b> <i>Tomáš Farkaš, Lucia Pernická, Anton Švec</i> .....	67
<b>Production of multimedia textbook: Ionizing radiation and radiation protection</b> <i>OPga Holá, Karol Holý</i> .....	71
<b><sup>222</sup>Rn in the outdoor atmosphere - trends, variations and radiation exposure</b> <i>Karol Holý, Martin Bulko, Anna Polášková, OPga Holá, Ján Šimon, Radoslav Böhm</i> .....	74
<b>Radiotherapy equipments for conformal radiotherapy and IMRT in the Czech Republic</b> <i>Ivana Horáková, Irena Pavlíková, Josef Novotný ml.</i> .....	78
<b>Evaluation of the Slovak national mammography QA audit and the consequences for mammography screening</b> <i>Horváthová, M., Nikodemová, D.</i> .....	82
<b>A comparative study of new type polymer gel dosimeters</b> <i>Jan Hrbacek, Vaclav Spevacek, Josef Novotny Jr., Tomas Cechak</i> .....	85

Professional radiation exposure in nuclear medicine 2003 and its dependence on various factors – some results of SONS and questionnaire survey in the Czech Republic I <i>Václav Hušák, Jaroslav Ptáček, Karla Petrová, Z. Pašková, M. Mysliveček</i> .....	88
Reducing indoor radon concentrations by passive subslab ventilation <i>Martin Jiránek, Czech Technical University, Faculty of Civil Engineering, Praha</i> .....	92
Volume activity <sup>226</sup> Ra mine waters of Ostrava-Karvina coal mines <i>Miroslav Jurda</i> .....	96
Evaluation and classification of mammographic departments during state supervision SÚJB <i>Eva Jursíková, Otto Kodl</i> .....	99
Acceptance of the EU regulations on mean doses of glandular on women's during mammographic examination in the Czech Republic <i>Otto Kodl, Eva Jursikova</i> .....	100
• Přehled současného úsilí o pokrok v otázce malých dávek <i>Vladislav Klener</i> .....	101
Application of the mathematical modelling and human phantoms for calculation of the organ doses <i>Klusoň J., Čechák T.</i> .....	103
• Bilancování radioaktivních výпустí z jaderných elektráren ČR a hodnocení jejich vlivu na okolí <i>Josef Koc, Vladimír Kulich, Jiří Pospíchal, Jiří Vokálek, Jaroslav Hak, Libor Fiala</i> .....	106
Crisis Management of State Office for Nuclear Safety of Czech Republic <i>František Koldus, Věra Starostová</i> .....	112
Nuclear energy supports sustainable development <i>Vasil Koprda</i> .....	113
Dismantling and Disposal of the Chisobox Experimental Irradiator <i>Radim Kříž</i> .....	117
Sorption of strontium on bentonites from Slovak deposits <i>Jana Kufčáková, Michal Galamboš, Pavol Rajec</i> .....	119
ALARA calculations for removal PESL liner from inner concrete wall of the underground storage reservoirs in the NPP A1 by VISIPLAN 3D planning tool <i>Daniela Kucharová, Petra Mičková, Ondrej Slávik, Martin Lištjak, František Šóoš</i> .....	121
Chemical Radioprotectors in Radiation Protection <i>Pavel Kuna</i> .....	124
Biodosimetric Methods for the Evaluation of Radiation Damage to the Organism <i>Pavel Kuna, Leoš Navrátil, Jaroslav Racek, Ondřej Scheinost, Eva Kantorová, Hana Šiffnerová, Jan Singer, Ladislav Beránek, Renata Havránková, Pavlína Martinů</i> .....	126
Mathematical Simulation of Gas Pressure in Fibre-Reinforced Concrete Container at Radiation and Biological Decomposition of Cellulose, Bitumenized and Concrete Radwastes <i>Jozef Kuruc, Peter Kvido</i> .....	130
A new evaluation of the cases of internal contamination with <sup>241</sup> Am from the year 2001 <i>I. Malátová</i> .....	134
Verifikácia dávkovej distribúcie IMRT polí <i>P. Marko, J. Cibíková</i> .....	138
Radiation monitoring network of the Slovak Hydrometeorological Institute <i>Tereza Melicherová</i> .....	139
Study of radiation situation around the MAPE <i>Reza Mirchi, Michal Fejgl, Václav Michálek</i> .....	142
The evaluation of the results of an independent radiation monitoring in the vicinity of the A-1 NPP currently under decommissioning <i>Jozef Morávek, Ondrej Slávik</i> .....	145
European handbook for the management of recovery options in contaminated inhabited areas following a radiation incident <i>Adela Mršková, Tatiana Ďúranová</i> .....	146
Radon exposure, chromosomal aberrations, and genetic polymorphisms in selected Slovak cave workers <i>Mušák E., Vičanová M., Vodička P., Hanová M., Buchancová J., Moravčíková K., Klimentová G., Vodičková, L., Pěč, M.</i> .....	151
Radiation burden of patients due to mammography <i>Leoš Novák</i> .....	155
Dose Assessment in panoramic dental radiography <i>Leoš Novák</i> .....	160

<b>Standardization of dosimetry in diagnostic radiology</b> <i>Leoš Novák, Ivana Horáková</i> .....	162
<b>Independent checks of linear accelerators equipped with multileaf collimators</b> <i>Irena Pavlíková, Daniela Ekendahl, Ivana Horáková</i> .....	164
<b>System of institutional radioactive waste management in the Nuclear Research Institute Řež plc</b> <i>Josef Podlaha, Patrick Burian</i> .....	168
<b>Monitoring of Primary Circuit and Reactor of NPP A-1</b> <i>M. Prazska, D. Majersky, J. Rezbarik, S. Sekely, P. Vozarik, R. Walthery, P. Stuller</i> .....	172
<b>Radiation protection of nuclear medicine workers in the Czech Republic in 2003 – some results of SONS and questionnaire survey II</b> <i>Jaroslav Ptáček, Václav Hušák, Karla Petrová, Zuzana Pašková, Ivo Přidal</i> .....	176
<b>NPP Bohunice - radiation protection indicators for last 10 years</b> <i>Tibor Rapant</i> .....	180
<b>Separation of actinides and strontium by extraction chromatography on Diphonix<sup>®</sup> Resin</b> <i>Oľga Roszkopfová, Diana Holková</i> .....	185
<b>„Independent“ Monitoring of the Aerosol Effluents from NPP Provided by SÚRO</b> <i>Petr Rulík, Vendula Pfeiferová, Rostislav Štaubr, Josef Tecl, Zoltán Holgye, Eva Schlesingerová,</i> .....	187
<b>Vertical distribution of <sup>90</sup>Sr and <sup>137</sup>Cs in uncultivated soil in three localities of central Bohemia</b> <i>E. Schlesingerová, P. Hejnová, J. Tecl, R. Mirchi, L. Šetrna, L. Macurová</i> .....	190
<b>Study of Radiation Protection at the Department of Radiology and Toxicology, Faculty of Health and Social Studies of University of South Bohemia</b> <i>Jan Singer, Pavel Kuna</i> .....	195
<b>Radiological characterisation of contaminated concretes from the object 44/20 of NPP A1</b> <i>Ondrej Slávik, Martin Lištjak, Igor Pély, František Šoóš</i> .....	199
<b>ALARA radiation protection applications at NPP A1 decommissioning using VISPLAN planning tool</b> <i>Ondrej Slávik, Daniela Kucharová, Martin Lištjak</i> .....	203
<b>Neutron and photon energy spectra at cyclotron CYCLONE 18/9 for production of PET radionuclides</b> <i>Marko Fülöp, Daniel Baček, Ondrej Szöllos</i> .....	208
<b>Aircraft crew exposure – new developments and results</b> <i>František Spurný, Ondřej Ploc</i> .....	211
<b>Dosimetry onboard International Space Station. Recent results, calibrations, studies in preparation</b> <i>František Spurný</i> .....	216
<b>Results of atmospheric <sup>14</sup>C monitoring and its comparison with other European stations</b> <i>I.Svetlík, R. Mirchi, V. Michalek, L. Tomaskova</i> .....	220
<b>System and Experiences in the Area of Radioactive Material Seizure Assurance</b> <i>Karel Svoboda, Josef Podlaha, David Šír, Nuclear Research Institute Řež plc.</i> .....	222
<b>Some important aspects of digital radiology</b> <i>Dušan Šalát</i> .....	225
<b>Radiation control at open-air sediment fixation facility</b> <i>Štefan Ševečka, Zuzana Holická, František Šoóš</i> .....	227
<b>Analysis of <math>\Delta^{14}\text{C}</math> variations in atmosphere</b> <i>Ján Šimon, Alexander Šivo, Marta Richtáriková, Karol Holý, Anna Polášková, Oľga Holá, Martin Bulko</i> .....	229
<b>The Determination of the Radiation Burden to Patients in Computed Tomography Examinations</b> <i>Ondřej Šmejkal</i> .....	233
<b>Results of Independent Monitoring of Releases of Noble Gases from Nuclear Facilities Collected by the SÚRO Prague</b> <i>Josef Tecl</i> .....	234
<b>Characteristic of the New Scintillators for Alpha Radiation Spectrometry</b> <i>L. Thinova, J. Tous, T. Trojek</i> .....	239
<b>Gamma Spectrometry Method for Biomonitoring in the Area of NPP Temelín</b> <i>L. Thinova, T. Cechak, J. Kluson, T. Trojek</i> .....	242
<b>Review of the Decontamination Activities including Radiation Protection Criteria during the Outages at Temelín NPP</b> <i>Ivan Tichý, Radek Trtílek, Petr Werbynský</i> .....	244
<b>Osobní dozimetry CSOD – harmonizace v rámci EU ve vztahu k nejistotám měření v limitních případech</b> <i>Jaroslav Trousil, Jiří Plichta, František Spurný</i> .....	245
<b>Releasing of Low Contaminated Solid Waste to the Environment at the Temelín Nuclear Power Plant</b> <i>Radek Trtílek, Petr Zapletal</i> .....	250

<b>National radiology standards in X-ray diagnostic incl. interventional radiology</b> <i>Vlastimil Válek, Pavel Kratochvíl</i> .....	251
<b>Development and extension of TLD audit in radiation therapy in the Czech Republic</b> <i>Jiří Valenta, Daniela Ekendahl</i> .....	253
<b>Analysis of Radionuclide Generation in Primary Circuit Water of LVR-15 Reactor</b> <i>L. Viererbl, Z. Lahodová, A. Horák, M. Marek, A. Voljanskij</i> .....	256
<b>Reduction of Systmatic Error of In-Vivo Measurement of Americum 241 Activity in the Skull</b> <i>Tomáš Vrba</i> .....	260
<b>The radioactivity of bottled mineral waters</b> <i>Vršková Marta, Babaríková Františka, Belanová Alena</i> .....	264
<b>Problematika vyhodnocování osobního dávkového ekvivalentu Hp(10)<sub>N</sub> od neutronů v místnostech kontejmentu v Jaderné elektrárně Temelín</b> <i>Zdeněk Zelenka, Jaroslav Trousil, Martin Schacherl</i> .....	265
