

# FOLIA PARASITOLOGICA

An International Journal for Parasitology

## CONTENTS

Volume 57 Number 1 March 2010

### Research Articles

Morphometric and molecular characterisation of four new <i>Ceratomyxa</i> species (Myxosporea: Bivalvulida: Ceratomyxidae) from fishes off Lizard Island, Australia N.L. Gunter, M.A.A. Burger, R.D. Adlard .....	1–10
<i>Gyrodactylus eyipayipi</i> sp. n. (Monogenea: Gyrodactylidae) from <i>Syngnathus acus</i> (Syngnathidae) from South Africa D.B. Vaughan, K.W. Christison, H. Hansen, A.P. Shinn .....	11–15
The description of <i>Gyrodactylus corleonis</i> sp. n. and <i>G. neretum</i> sp. n. (Platyhelminthes: Monogenea) with comments on other gyrodactylids parasitising pipefish (Pisces: Syngnathidae) G. Paladini, J. Cable, M.L. Fioravanti, P.J. Faria, A.P. Shinn .....	17–30
<i>Nudaciraxine imperium</i> sp. n. (Monogenea: Axinidae) from the gills of Mediterranean needlefish <i>Tylosurus acus imperialis</i> (Teleostei: Belontiidae) M. Châari, H. Derbel, L. Neifar .....	31–36
Scolex morphology of monozoic cestodes (Caryophyllidea) from the Palaearctic Region: a useful tool for species identification M. Oros, T. Scholz, V. Hanzelová, J.S. Mackiewicz .....	37–46
New species of <i>Rhabdias</i> (Nematoda: Rhabdiasidae) from Afrotropical anurans, including molecular evidence and notes on biology K. Junker, N. Lhermitte-Vallarino, M. Barbuto, I. Ineich, S. Wanji, O. Bain .....	47–61
The effects of condensed tannins extracted from different plant species on egg hatching and larval development of <i>Teladorsagia circumcincta</i> (Nematoda: Trichostrongylidae) A.-L. Molan, A.M. Faraj .....	62–68
The genus <i>Hyalomma</i> Koch, 1844. X. Redescription of all parasitic stages of <i>H. (Euhyalomma) scupense</i> Schulze, 1919 (= <i>H. detritum</i> Schulze) (Acari: Ixodidae) and notes on its biology D.A. Apanaskevich, N.A. Filippova, I.G. Horak .....	69–78
<b>Book Review</b> .....	16
<b>Instructions to Authors</b> .....	79–80
