

FOLIA PARASITOLOGICA

An International Journal for Parasitology

CONTENTS

Volume 59 Number 1 February 2012

Research Articles

- Haematozoans from deep water fishes trawled off the Cape Verde Islands and over the Porcupine Seabight, with a revision of species within the genus *Desseria* (Adeleorina: Haemogregarinidae)
A.J. Davies, S. Hosein, N.R. Merrett 1–11
- A new species of *Choleoeimeria* (Apicomplexa: Eimeriidae) from Oustalet's chameleon, *Furcifer oustaleti* (Sauria: Chamaeleonidae)
C.T. McAllister 12–14
- Genetic characterisation of *Giardia duodenalis* in dairy cattle in Brazil
F.M. Paz e Silva, R.S. Lopes, J.P. Araújo Jr. 15–20
- Urine sample used for detection of *Toxoplasma gondii* infection by loop-mediated isothermal amplification (LAMP)
X. Hu, C.-W. Pan, Y.-F. Li, H. Wang, F. Tan 21–26
- Redescription of *Eimeria dorcadis* Mantovani, 1966 (Apicomplexa: Eimeriidae) from the dorcas gazelle (*Gazella dorcas*) in Saudi Arabia
O.B. Mohammed, A.N. Alagaili, S.A. Omer 27–31
- Spermiogenesis and spermatozoon of the liver fluke *Mediogonimus jourdanei* (Microphalloidea: Prosthogonimidae), a parasite of *Myodes glareolus* (Rodentia: Cricetidae)
A.J.S. Bakhoun, C. Feliu, C.T. Bâ, J. Miquel 32–42
- Histochemical demonstration of five enzymes' activities in *Macrogyrodactylus clarii* (Monogenea: Gyrodactylidae) from the catfish *Clarias gariepinus*
S.Z. Arafa, E.K. Abd El-Hady, S.A. El-Abbassy 43–52
- The microecology of dactylogyrids (Monogenea: Dactylogyridae) on the gills of wild spotted rose snapper *Lutjanus guttatus* (Lutjanidae) from Mazatlan Bay, Mexico
L.C. Soler-Jiménez, E.J. Fajer-Ávila 53–58
- Two new species of *Protogyrodactylus* (Monogeneoidea: Dactylogyridae) from the gills of *Gerres nigri* (Teleostei: Gerreidae) from Senegal
W.A. Boeger, A. Diamanka, A. Pariselle, L. Patella 59–63
- A new species of *Neoscarophis* (Nematoda: Cystidicolidae) parasitic in *Mullus argentinae* (Perciformes: Mullidae) from the Atlantic coast of South America
A.N. Pereira, J.T. Timi, F.M. Vieira, J.L. Luque 64–70
- Two species of philometrid nematodes (Philometridae) from marine fishes off Japan, including *Philometroides branchiostegi* sp. n. from *Branchiostegus japonicus* (Malacanthidae)
F. Moravec, K. Nagasawa, K. Nohara 71–78
- Instructions to Authors** 79–80
