

FOLIA PARASITOLOGICA

An International Journal for Parasitology

CONTENTS

Volume 59 Number 4 December 2012

Research Articles

- Molecular survey and microscopic examination of *Hepatozoon* Miller, 1908 (Apicomplexa: Adeleorina) in lacertid lizards from the western Mediterranean
J.P.M.C. Maia, A. Perera, D.J. Harris 241–248
- Morphological description of *Isospora alyousifi* nom. n. for *I. acanthodactyli* Alyousif et Al-Shawa, 1997 (Apicomplexa: Eimeriidae) infecting *Acanthodactylus schmidti* (Sauria: Lacertidae) in Saudi Arabia
A.-A.S. Abdel-Baki, H.M. Abdel-Haleem, S. Al-Quraishy 249–252
- Toxoplasma gondii* infection affects cognitive function – corrigendum
J. Flegr, W. Guenter, M. Bieliński, A. Deptuła, P. Zalas-Więcek, M. Piskunowicz, K. Szwed, A. Buciński, E. Gospodarek, A. Borkowska 253–254
- The characteristics of the expression of heat shock proteins and cox-2 in the liver of hamsters infected with *Clonorchis sinensis*, and the change of endocrine hormones and cytokines
W.-H. Choi, J.-P. Chu 255–263
- Breizacanthus aznari* sp. n. (Acanthocephala: Arhythmacanthidae) from the banded cusk-eel *Raneya brasiliensis* (Ophidiiformes: Ophidiidae) from the Patagonian coast in Argentina
J.S. Hernández-Orts, G. Alama-Bermejo, E.A. Crespo, N.A. García, J.A. Raga, F.E. Montero 264–271
- First report of *Potorolepis* Spassky, 1994 (Eucestoda: Hymenolepididae) from China, with description of a new species in bats (Chiroptera: Rhinolophidae)
T.A. Makarikova, A.A. Makarikov 272–278
- A new species of *Australotaenia* (Cestoda: Proteocephalidea) from a snake in Cambodia: host switching or postcyclic parasitism in a distant region?
A. de Chambrier, T. Scholz 279–286
- Cuculepis cincta* gen. n. et sp. n. (Cestoda: Cyclophyllidea) from the squirrel cuckoo *Piaya cayana* Lesson (Aves: Cuculiformes) from Paraguay
A.J. Phillips, J. Mariaux, B.B. Georgiev 287–294
- Mathevolepis alpina* sp. n. (Cestoda: Hymenolepididae) from an alpine shrew: the first record of the genus in Europe
R. Binkienė, L. Kontrimavičius 295–300
- Two new feather mite species (Acari, Pteronyssidae) from the white-barred piculet, *Picumnus cirratus* (Aves, Piciformes)
F.A. Hernandez 301–307
- Pseudolamproglena boxshalli* sp. n. (Lernaeidae: Lamprogleninae) parasitic on gills of *Cyprinion macrostomum* (Teleostei: Cyprinidae) from the Tigris River, Iraq
F.S. Al-Nasiri, J. Ho, F.T. Mhaisen 308–310
- ### Research Notes
- Trichinellosis in mice: effect of albendazole on the glutathione transferase in the intestines
A. Wojtkowiak-Giera, E. Wandurska-Nowak, M. Michalak, M. Derda, J. Łopaciuch 311–314
- New data on the morphology of *Iheringascaris iniquus* (Linton, 1901) (Nematoda: Anisakidae), a specific parasite of the marine fish *Rachycentron canadum* (Linnaeus), as revealed by SEM
F. Moravec, J. Yost, I. de Buron 315–318
- Contents of Volume 59 (2012)** 319–320
