

FOLIA PARASITOLOGICA

An International Journal for Parasitology

CONTENTS

Volume 61 Number 6 December 2014

Research Articles

- Does the prevalence of latent toxoplasmosis and frequency of Rhesus-negative subjects correlate with the nationwide rate of traffic accidents?
Jaroslav Flegr, Madhukar Dama 485–494
- High prevalence of trypanosome co-infections in freshwater fishes
Anastasiia Grybchuk-Ieremenko, Alexander Losev, Alexei Yu. Kostygov, Julius Lukeš
Vyacheslav Yurchenko 495–504
- Myxobolus oralis* sp. n. (Myxosporaea: Bivalvulida) infecting the palate in the mouth of gibel carp *Carassius auratus gibelio* (Cypriniformes: Cyprinidae)
Yang Liu, Christopher M. Whipps, Pin Nie, Zema Gu 505–511
- Bile canalicular changes and defective bile secretion in *Opisthorchis viverrini*-infected hamsters
Lakhanawan Charoensuk, Porntip Pinlaor, Umawadee Laothong, Puangrat Yongvanit, Chawalit Pairojkul,
Yukifumi Nawa, Somchai Pinlaor 512–522
- Phylogenetic relationships and systematic position of the families Cortrematidae and Phaneropsolidae
(Platyhelminthes: Digenea)
Gerard Kanarek, Grzegorz Zalesny, Jilji Sitko, Vasyl V. Tkach 523–528
- Revision of the genus *Afrogyrodactylus* Paperna, 1968 (Monogenea: Gyrodactylidae) with description of two
new species from geographically distant localities
Iva Příkrylová, Wilmien J. Luus-Powell 529–536
- Assessment of platyhelminth diversity within amphibians of French Guiana revealed a new species of
Nanopolystoma (Monogenea: Polystomatidae) in the caecilian *Typhlonectes compressicauda*
Louis H. du Preez, Mathieu Badets, Olivier Verneau 537–542
- Parapedocotyle prolatili* gen. n. et sp. n., a representative of a new subfamily of the Dicliphoridae
(Monogenea), a gill parasite of *Prolatilus jugularis* (Teleostei: Pinguipedidae) from Chile
Marcelo E. Oliva, Fabiola A. Sepulveda, M. Teresa González 543–548
- Ultrastructure and chemical composition of the proboscis hooks of *Acanthocephalus lucii* (Müller, 1776)
(Acanthocephala: Palaeacanthocephala) using X-ray elemental analysis
Tímea Brázová, Larisa G. Poddubnaya, Noemi Ramírez Miss, Vladimira Hanzelová 549–557
- Moxidectin causes adult worm mortality of human lymphatic filarial parasite *Brugia malayi* in rodent models
Meenakshi Verma, Manisha Pathak, Mohd Shahab, Kavita Singh, Kalyan Mitra,
Shailja Misra-Bhattacharya 561–570
- Ophidascaris wangi* sp. n. and *O. najae* (Geddoelst, 1916) (Ascaridida: Ascaridoidea) from snakes in China
Liang Li, Yan-Ning Guo, Jian Li, Lu-Ping Zhang 571–580
- Differences between populations of *Spinturnix myoti* (Acari: Mesostigmata) in breeding and non-breeding
colonies of *Myotis myotis* (Chiroptera) in central Europe: the effect of roost type
Tomasz Postawa, Agnieszka Szubert-Kruszyńska, Hanna Ferenc 581–588

Research Note

- Consumption of untested pork contributed to over two-thousand clinical cases of human trichinellosis in
Romania
Cristina Dobrescu, Horia Hriscu, Mihaela Emandi, Carmen Zamfir, Codruta Nemet 558–560
