Introduction	7
Theoretical Part	11
1. The Temperature Dependence of Solubility	13
2. Concentration Units	16
3. Smoothing of Experimental Data	18
4. Examples of the Use of Solubility Data	20
4.1. Evaluation of Data on Solution Supersaturation	20
4.2. Material and Heat Balance of Crystallization	20
4.3. The Temperature Dependence of Solubility in Three—Component Systems	21
5. Crystallographic and Structural Characterization of Substances	23
6. List of Symbols	28
Tables of Solubilities	31
Notes to the Tables	33
Tables	35
Formula Index	563
