<b>The society for mycotoxin research - activities in the past and in the future.....</b>	<b>3</b>
Manfred Gareis	
<b>Harmonizovaná legislatíva v oblasti mykotoxínov v potravinách.....</b>	<b>9</b>
Mária Matúšová	
<b>Problematika mykotoxínů z pohledu úmluvy zákazu biologických zbraní.....</b>	<b>11</b>
Karel Lehmert	
<b>Molecular and field evidence of implication of mycotoxins (notably Ochratoxin A) in animal and human nephrotoxicity and urothelial cancer .....</b>	<b>13</b>
A. Pfohl-Leszkowicz, R.A. Manderville, M. Tozlovanu, M. Baker, V. Faucet-Marquis, W. Gabryelski, Bianca Squillaci, P. Mantle	
<b>Recent advances in control of multiple mycotoxins in food matrices by bioanalytical and instrumental methods.....</b>	<b>18</b>
Jana Hajšlová, Alexandra Malachová, Marta Kostelanská, Milena Zachariášová, Ondřej Lacina, Lukáš Václavík, Jan Poustka and Vladimír Kocourek	
<b><i>Alternaria</i> mycotoxins in foodstuffs – current information for health risk assessment... </b>	<b>21</b>
Vladimír Ostrý, Jarmila Škarková, Jiří Ruprich	
<b>Ochratoxin A a citrinin v obilovinách.....</b>	<b>31</b>
Ivana Polišenská, A. Pfohl-Leszkowicz, K. Hadjeba, V. Dohnal, O. Jirsa, O. Denešová, A. Ježková, P. Macharáčková	
<b>Mykotoxiny, GMO a objemná krmiva.....</b>	<b>39</b>
Jan Nedělník, Hana Moravcová	
<b>Výskum mykotoxínov vo Výskumnom ústave potravinárskom Bratislava.....</b>	<b>42</b>
Elena Belajová	
<b>Plísně a mykotoxiny v pracovním prostředí.....</b>	<b>45</b>
František Malíř, Tomáš Roubal, Ivana Dvořáčková	
<b>New developments for ELISA based method for mycotoxin analysis.....</b>	<b>54</b>
Ronald Niemeijer	
<b>Rezistence odrůd pšenice jako účinný nástroj pro minimalizaci obsahu mykotoxinů v zrně.....</b>	<b>56</b>
Jana Chrpová, Václav Šíp, Lenka Štočková	
<b>The development and optimisation of extraction methods for multi-mycotoxin immunoaffinity columns.....</b>	<b>61</b>
Claire Milligan	
<b>Účinky fuzáriových mykotoxínov na antioxidačný a imunitný status hydiny.....</b>	<b>63</b>
Radka Bořutová	
<b>Development of HPLC-FD method for the determination of ultra-trace amounts of ochratoxin A in human urine.....</b>	<b>69</b>
Jarmila Škarková, Vladimír Ostrý, Radek Kavrik	
<b>Výskyt mykotoxínů v krmivech v České republice.....</b>	<b>76</b>
Markéta Pospíchalová	

## **POSTERY:**

- Comparative study of patulin determination in apple products using high-performance liquid chromatography with photodiode array detector and ultra performance liquid chromatography with electrospray-tandem mass spectrometry.....** 80  
D. Rosinska, M. Vierikova, M. Fričová, J. Lehotay
- Simultaneous determination of Deoxynivalenol, Zearalenone, T-2 & HT-2 using DZT MS-PREP<sup>®</sup> in conjunction with LC-MS/MS.....** 82  
David Leeman, Elaine. C. Marley, Claire Milligan
- Use of the UPLC-FLR method for monitoring of ochratoxin A in wine.....** 83  
R. Mikulíková, S. Běláková, Z. Svoboda, K. Benešová
- RIDA<sup>®</sup> QUICK DON plus RIDA<sup>®</sup> QUICK SCAN: A new approach for mycotoxin analysis .....** 88  
Michael Mättner, Martin Mehl, Walter Lübbe, Johannes Winkle, Peter Schubert
