

Table of contents

Table of contents	...4
Foreword	...6
Abstracts	...8
Hana Adámková: Imaging of glioblastoma multiforme in a mouse model using PET/CT system	...9
Nickolay Harryzanov: Investigation of the temperature stratification in water thermal energy accumulator	...10
David Havlíček, Jiří Plocek, Lukáš Taraba: The role of hydrogen bond in proton conductivity of crystalline compounds; measurement on solid samples	...11
Katerina Havlickova: Analysis of forest ecosystem components by modern analytical methods in accordance to ICP Forests methodology	...14
Daniel Niznansky: Magnetic nanoparticles - their preparation and physical properties	...16
Yulian Pishev: Kayaking expedition in greenland and traditional kayak making	...18
Jiri Plocek, Ondrej Vik, Eva Vecernikova, Jitka Vecernikova: Preparation and characterization of magnetic catalyst: Nanocrystalline CoFe_2O_4 in CeO_2 matrix	...20
Ana-Maria Putz, Cătălin Ianăși, László Almásy, Adel Len, Jiri Plocek, Liviu Săcărescu, Cecilia Savii: Base catalysed template mesoporous silica. The pore ordering extent studied by SANS and SAXS	...22

Martina Riesova, Jana Svobodova, Martin Benes, Eva Tesarova: Hidden disturbing phenomena in separation systems of capillary electrophoresis	...24
Mitko Stoev: Building integrated energy saving 420 Wp PV generators into balcony and façade structure and indoor energy mix	...26
Teodor Todorov: Sizing of a Stand-alone PV System in Northern Greece	...27
Jakub Večerka: Synthesis and structural properties of arsenates of selected organic amines	...28
List of participants	...30
