Genetically altered mice, man and medicine

Nirmala Bhogal 47 – 56

Electrochemical biosensors – principles and applications

Miroslav Pohanka, Petr Skládal 57 – 64

Advances in chronohaematology

Josef Berger 65 – 72

ORIGINAL ARTICLES

Locomotor activity and serum tryptophan and serotonin in goats: daily rhythm

Giuseppe Piccione, Claudia Giannetto, Anna Assenza, Francesco Fazio, Giovanni Caola 73 – 79

Antihyperglycaemic activity of alcoholic extract of *Aerva lanata* (L.) A. L. Juss. Ex J. A. Schultes leaves in alloxan induced diabetic mice

Tushar A. Deshmukh, Bapuso V. Yadav, Sachin L. Badole, Subhash L. Bodhankar,
Sunil R. Dhaneshwar 81 – 87

Effect of *Helicteres isora* bark extracts on heart antioxidant status and lipid peroxidation in streptozotocin diabetic rats

Ganesan Kumar, Gani Sharmila Banu, Arunachalam Ganesan Murugesan... 89 – 95

Distribution of cyclooxygenase-1 and cyclooxygenase-2 in the mouse seminal vesicle

Thotakura Balaji, Manickam Ramanathan, Marimuthu Srinivasan,
Venugopal Padmanabhan Menon 97 – 104

Biochemical studies on the effect of *Terminalia chebula* on the levels of glycoproteins in stz-induced experimental diabetes in rats

Gandhipuram Periasamy Senthilkumar, Sorimuthu Pillai Subramanian 105 – 115
