

CONTENTS

ARTICLES

- 1 A serine protease from the midgut of the bumblebee, *Bombus ignitus* (Hymenoptera: Apidae): cDNA cloning, gene structure, expression and enzyme activity — Y.M. CHOO, K.S. LEE, H.J. YOON, S.B. LEE, J.H. KIM, H.D. SOHN & B.R. JIN
- 9 Moist habitats are essential for adults of the Antarctic midge, *Belgica antarctica* (Diptera: Chironomidae), to avoid dehydration — J.B. BENOIT, G. LOPEZ-MARTINEZ, M.A. ELNITSKY, R.E. LEE JR. & D.L. DENLINGER
- 15 Factors terminating ovarian arrest in long-winged females of a flightless bug, *Pyrrhocoris apterus* (Heteroptera: Pyrrhocoridae) — R. SOCHA
- 23 First demonstration of the influence of photoperiod on the thermal requirements for development in insects and in particular the linden-bug, *Pyrrhocoris apterus* (Heteroptera: Pyrrhocoridae) — E.B. LOPATINA, S.V. BALASHOV & V.E. KIPYATKOV
- 33 Feeding conditions modify the photoperiodically induced dispersal of the water strider, *Aquarius paludum* (Heteroptera: Gerridae) — T. HARADA & T. NISHIMOTO
- 39 Variation, selection and heritability of thermal reaction norms for juvenile growth in *Orchesella cincta* (Collembola: Entomobryidae) — G. DRIESSEN, J. ELLERS & N.M. VAN STRAALLEN
- 47 Density dependence of the alarm pheromone effect in pea aphids, *Acyrtosiphon pisum* (Sternorrhyncha: Aphididae) — G. KUNERT, J. TRAUTSCH & W.W. WEISSER
- 51 Aggregation characteristics of three species of Coccinellidae (Coleoptera) at hibernation sites — A. HONĚK, Z. MARTINKOVÁ & S. PEKÁR
- 57 Role of olfactory and visual stimuli in the mating behaviour of male vine bud moths, *Theresimima ampellophaga* (Lepidoptera: Zygaenidae) — T.B. TOSHOVA, M.A. SUBCHEV & M. TÓTH
- 67 Development of the entomopathogenic hyphomycete *Lecanicillium muscarium* (Hyphomycetes: Moniliales) on various hosts — H. ASKARY & H. YARMAND
- 73 Population, ecology and morphology of *Saga pedo* (Orthoptera: Tettigoniidae) at the northern limit of its distribution — A. KRIŠTÍN & P. KAŇUCH
- 81 Embryogenesis of *Aphidoletes aphidimyza* (Diptera: Cecidomyiidae): Morphological markers for staging of living embryos — J. HAVELKA, V. LANDA JR. & V. LANDA
- 89 Female copulatory tubes and the subdivision of the genus *Anthocoris* (Heteroptera: Anthocoridae: Anthocorini) — Y. KE & W. BU
- 99 *Afroaltica subaptera*, new genus and new species of flea beetles from the southern Africa (Coleoptera: Chrysomelidae: Alticinae) — M. BIONDI & P. D'ALESSANDRO
- 105 Review of *Ceranisis* (Hymenoptera: Eulophidae) of Turkey, with description of a new species — M. DOĞANLAR & S.V. TRIAPITSYN
- 111 Identity, larva and distribution of the Oriental soldier fly, *Odontomyia ochropa* (Diptera: Stratiomyidae) — J. NERUDOVÁ-HORSÁKOVÁ, D. KOVAC & R. ROZKOŠNÝ
- 119 Rediscovery, redescription and reclassification of *Beludzhia phylloteliptera* (Diptera: Sarcophagidae: Miltogramminae) — K. SZPILA & T. PAPE

NOTES

- 139 Increased migration of Lepidoptera linked to climate change — T.H. SPARKS, R.L.H. DENNIS, P.J. CROXTON & M. CADE
- 145 The courtship song of *Drosophila santomea* and a comparison to its sister species *D. yakuba* (Diptera: Drosophilidae) — E.T. WATSON, E. RODEWALD & J.A. COYNE
- 149 Suitability of various prey types for the development of *Propylea japonica* (Coleoptera: Coccinellidae) — S.-Z. ZHANG, F. ZHANG & B.-Z. HUA
- 153 Impact of poor host-parasitoid synchronisation on the parasitism of *Cameraria ohridella* (Lepidoptera: Gracillariidae) — G. GRABENWEGER, H. HOPP, B. JÄCKEL, H. BALDER, T. KOCH & S. SCHMOLLING
- 159 Acceptance of two native myrmecophilous species, *Platyarthrus hoffmannseggii* (Isopoda: Oniscidea) and *Cyphoderus albinus* (Collembola: Cyphoderidae) by the introduced invasive garden ant *Lasius neglectus* (Hymenoptera: Formicidae) in Belgium — W. DEKONINCK, K. LOCK & F. JANSSENS
