

## CONTENTS

### REVIEW

- 1 The impact of male-killing bacteria on the evolution of aphidophagous coccinellids — M.E.N. MAJERUS

### ARTICLES

- 9 Karyotype and male meiosis in *Spartocera batatas* and meiotic behaviour of multiple sex chromosomes in Coreidae (Heteroptera) — M.J. FRANCO, M.J. BRESSA & A.G. PAPESCHI
- 17 Heartbeat reversal after sectioning the dorsal vessel and removal of the brain of diapausing pupae of *Manduca sexta* (Lepidoptera: Sphingidae) — K. SLÁMA
- 27 Corpus allatum volume-dependent differences in accessory gland maturation in long- and short-winged males of *Pyrrhocoris apterus* (Heteroptera: Pyrrhocoridae) — R. SOCHA & M. HODKOVÁ
- 33 Ageing trajectory and longevity trade-off in an aphidophagous ladybird, *Propylea dissecta* (Coleoptera: Coccinellidae) — G. MISHRA & OMKAR
- 41 Adaptive preferential selection of female coccinellid hosts by the parasitoid wasp *Dinocampus coccinellae* (Hymenoptera: Braconidae) — D.S. DAVIS, S.L. STEWART, A. MANICA & M.E.N. MAJERUS
- 47 Number of larval instars and sex-specific plasticity in the development of the small heath butterfly, *Coenonympha pamphilus* (Lepidoptera: Nymphalidae) — E. GARCÍA-BARRÓS
- 55 Exploitation of the serpentine leafminer *Liriomyza trifolii* and tomato leafminer *L. bryoniae* (Diptera: Agromyzidae) by the parasitoid *Gronotoma micromorpha* (Hymenoptera: Eucolidae) — Y. ABE
- 61 Effect of early succession in wildflower areas on bug assemblages (Insecta: Heteroptera) — T. FRANK & I. KÜNZLE
- 71 Community structure and reproductive biology of bark beetles (Coleoptera: Scolytinae) associated with Macaronesian *Euphorbia* shrubs — B.H. JORDAL
- 81 Response of *Coccinella septempunctata* and *Menochilus sexmaculatus* (Coleoptera: Coccinellidae) to their aphid prey, *Lipaphis erysimi* (Hemiptera: Aphididae) in rapeseed-mustard — J.S. RANA
- 85 On the head morphology of Lepiceridae (Coleoptera: Myxophaga) and the systematic position of the family and suborder — E. ANTON & R.G. BEUTEL
- 97 Metathoracic glands and associated evaporatory structures in Reduvidae (Heteroptera: Cimicomorpha), with observation on the mode of function of the metacoxal comb — C. WEIRAUCH
- 109 Foraging activity and demographic patterns of two termite species (Isoptera: Rhinotermitidae) living in urban landscapes in southeastern Brazil — Oldest records of Bombyliidae: Phthiriinae and Mythicomysiidae: Glabellulinae from the Lowermost Eocene amber of France (Diptera: Bombylioidea) — A. NEL
- 115 A revision of *Metriorrhynchus* from the Philippines with molecular evidence of an Australian origin of the Oriental *Metriorrhynchus* fauna (Coleoptera: Lycidae) — L. BOCÁK, K. MATSUDA & T. YAGI
- 127 Review of the tribe Lyropaeini (Coleoptera: Lycidae) — M. BOCÁKOVÁ
- 137 Revision of the genus *Teratolytta* (Coleoptera: Meloidae) — M.A. BOLOGNA & A. DI GIULIO
- 163 Redefinition of the Clusiinae and Clusiodinae, description of the new subfamily Sobarocephalinae, revision of the genus *Chaetochusia* and a description of *Procerosoma* gen. n. (Diptera: Clusiidae) — O. LONSDALE & S.A. MARSHALL
- 183 The identity of *Pseudopsila*, description of a new subgenus of *Psila*, and redefinition of *Psila* sensu lato (Diptera: Psilidae) — M. BUCK & S.A. MARSHALL
- 193 Revision of New World *Loxocera* (Diptera: Psilidae), with phylogenetic redefinition of Holarctic subgenera and species groups — M. BUCK & S.A. MARSHALL
- 221 *Berchmansus elegans* (Neuroptera: Chrysopidae): Larval and adult characteristics and new tribal affiliation — C.A. TAUBER, M.J. TAUBER & G.S. ALBUQUERQUE

### NOTES

- 233 Molecular studies of *Anopheles culicifacies* (Diptera: Culicidae) in Sri Lanka: Sibling species B and E show sequence identity at multiple loci — S.N. SURENDRAN, N.J. HAWKES, A. STEVEN, J. HEMINGWAY & R. RAMASAMY
- 239 C-banding, fluorescent staining and NOR location in holokinetic chromosomes of bugs of the Neotropical genus *Antiteuchus* (Heteroptera: Pentatomidae: Discocephalinae) — C. LANZONE & M.J. DE SOUZA
- 245 Resource guarding by *Ptomascopus morio*: Simple parental care in the Nicrophorinae (Coleoptera: Silphidae) — S. SUZUKI & M. NAGANO
- 249 Short-term consequences of nutritional depression on foraging behaviour of dark bush-crickets *Pholidoptera griseoaptera* (Orthoptera: Ensifera) — S. HAHN & G. KUNERT
- 255 Effect of the secondary substances from wheat on the growth and digestive physiology of cotton bollworm *Helicoverpa armigera* (Lepidoptera: Noctuidae) — Y. WANG, Q.-N. CAI, Q.-W. ZHANG & Y. HAN
- 259 The influence of yellow lupin intercropped with spring triticale on predatory carabid beetles (Coleoptera: Carabidae) — M. HUREJ & J.P. TWARDOWSKI
- 263 Increased xylem ingestion and decreased phloem ingestion in the aphid *Acyrtosiphon pisum* (Hemiptera: Aphididae) parasitised by *Aphidius ervi* (Hymenoptera: Braconidae) — C.C. RAMÍREZ, C.A. VILLAGRA & H.M. NIEMEYER
- 267 Phenylacetaldehyde: A chemical attractant for common green lacewings (*Chrysoperla carnea* s. l., Neuroptera: Chrysopidae) — M. TÓTH, A. BOZSIK, F. SZENTKIRÁLYI, A. LETARDI, M.R. TABILIO, M. VERDINELLI, P. ZANDIGIACOMO, J. JEKISA & I. SZARUKÁN
