

## CONTENTS

### REVIEWS

- 139 Pre- and post-parturial aspects of scorpion reproduction: a review — M.R. WARBURG  
147 Toxic associations: A review of the predatory behaviors of millipede assassin bugs (Hemiptera: Reduviidae: Ectrichodiinae) — M. FORTHMAN & C. WEIRAUCH

### ARTICLES

- 155 Identification of 37 microsatellite loci for *Anthophora plumipes* (Hymenoptera: Apidae) using next generation sequencing and their utility in related species — K. ČERNÁ & J. STRAKA  
161 Genetic variation in Turkish honeybees *Apis mellifera anatoliaca*, *A. m. caucasica*, *A. m. meda* (Hymenoptera: Apidae) inferred from RFLP analysis of three mtDNA regions (16S rDNA-COI-ND5) — F. ÖZDİL, İ. AYETKİN, F. İLHAN & S. BOZTEPE  
169 *Wolbachia* infection in *Trissolcus* species (Hymenoptera: Scelionidae) — N. GUZ, E. KOCAK, A.E. AKPINAR, M.O. GURKAN & A.N. KILINCER  
175 Effect of different prey species on the life history parameters of *Chrysoperla sinica* (Neuroptera: Chrysopidae) — N.H. KHUHRO, H. CHEN, Y. ZHANG, L. ZHANG & M. WANG  
181 Larval crowding leads to unusual reaction norms for size and time at maturity in a geometrid moth (Lepidoptera: Geometridae) — H. VELLAU & T. TAMMARU  
187 The degree of protection different ants (Hymenoptera: Formicidae) provide aphids (Hemiptera: Aphididae) against aphidophages — T.A. NOVGORODOVA & A.V. GAVRILYUK  
197 Species diversity and nestedness of ant assemblages in an urban environment — P. ŚLIPIŃSKI, M. ŻMIHORSKI & W. CZECHOWSKI  
207 Correlations between landscape attributes and ecological traits of Lepidoptera communities in olive groves — S. SCALERCIO, P. BRANDMAYR, N. IANNOTTA, R. PETACCHI & L. BOCCACCIO  
217 Adult demography, spatial distribution and movements of *Zerynthia polyxena* (Lepidoptera: Papilionidae) in a dense network of permanent habitats — T. ČELIK  
229 Preference of larvae of *Enallagma cyathigerum* (Odonata: Coenagrionidae) for habitats of varying structural complexity — R.C.M. VERDONSCHOT & E.T.H.M. PEETERS  
235 Patterns in the diversity of dragonflies (Odonata) in cities across Central Europe — C. WILLIGALLA & T. FARTMANN  
247 Are macrophyte-dwelling Chironomidae (Diptera) largely opportunistic in selecting plant species? — M. TÓTH, A. MÓRA, B. KISS, G. DÉVAI & A. SPECIÁR  
261 Symbiotic bacteria (*Erwinia* sp.) in the gut of *Frankliniella occidentalis* (Thysanoptera: Thripidae) do not affect its ability to transmit tospovirus — E.J. DE VRIES, F. VAN DE WETERING, M.M. VAN DER HOEK, G. JACOBS & J.A.J. BREEUWER  
267 Thoracic scent efferent system and exponium of Aphylidae (Hemiptera: Heteroptera: Pentatomoidea), its architecture and function — P. KMENT, P. ŠTYS & J. VILÍMOVÁ  
281 The earliest fossil flower bugs (Heteroptera: Cimicomorpha: Cimicoidea: Vetanthocoridae) from the Middle Jurassic of Inner Mongolia, China — W. HOU, Y. YAO, W. ZHANG & D. REN

### NOTE

- 289 Reproductive biology of the palm borer, *Paysandisia archon* (Lepidoptera: Castniidae) — R. DELLE-VEDOVE, L. BEAUDOIN-OLLIVIER, M. HOSSAERT-McKEY & B. FRÉROT
