News

5 World News

Appointments

7 People on the move

Recent appointments in the industry.

North America

8 The future of American hydropower

American Municipal Power has been powering up existing hydro facilities on the Ohio River with help from MWH.

12 Whooshh: A new era in fish passage

An innovative new system aims to revolutionise fish passage at US dams.

16 Pathway to the future

A graduates program from the US Army Corp of Engineers is expected to play a key role in retaining the knowledge and experience lost when employees retire.

18 Learning historical dam safety lessons

Marking the anniversary of historical dam failures serves as a poignant reminder of the importance of dam safety, the ASDSO writes.

20 Reaching agreement

New agreement could see the removal of dams on the Klamath River.

22 Postcards from Minnesota

Recent news from exhibitors at this year's Hydrovision event.

26 Large or small?

Members of the US dams industry share their thoughts on whether dam size matters, and discuss the prospects for future construction across the country.

30 A core mission

Tennessee Valley Authority (TVA) has employed geotechnical core drilling to determine the quality of soil layers beneath dams.

Spillways

32 Dam inflation

UK rubber dam and spillway gate specialist Dyrhoff explains the growing popularity of pneumatically-operated gates.

Turbines and generators

35 InRace generates modular, state of the art solutions

HydroWorks has developed a standardised, water-to-wire, mini hydro solution for owners and operators of irrigation schemes.

Cover: Smithland project in Kentucky, one of four new hydro projects developed by AMP on existing dams (see p8 for more details).
