News

5 World News

Renewables integration

9 Pump up the money

New research says that investment in energy storage, including pumped storage, is vital if renewables are to achieve their full potential.

Spotlight

10 Hydropower Status Report 2016

In its recently published status report, the IHA gives a comprehensive insight and analysis of developments within the global hydropower industry.

BRIC

12 BRIC's and water

New hydropower development is on the cards in Brazil, Russia, India and China.

Tunnelling

16 The length and depth of it

In the yearbook 2016, IWP&DC, in association with Fichtner, has compiled a list of underground power houses built at some of the world's major hydroelectric power plants. In this data-led feature we provide a taster of the kinds of information included.

18 Working the machine

Tunnel boring machines (TBM's) are carving out hydroelectric tunnels at a number of projects internationally.

Investment

22 EBRD & hydro

The European Bank for Reconstruction and Development (EBRD) discusses its hydro funding with Patrick Reynolds.

25 Lending a helping hand

The International Finance Corporation (IFC) is working to ensure development follows good international industry practices.

28 The true value of infrastructure investment

Project owners and sponsors are being urged to rethink the value they receive from infrastructure investment.

30 Investing in hydro

IWP&DC takes a look at how hydropower investments are shaping up around the world.

Spillways

12 Gated versus ungated spillways: working together for dam safety

Presenting a case study from a dam equipped with a combined gated and ungated spillway in order to improve safety.
