

## Table of Context

TABLE OF CONTEXT .....	5
1. ARTIFICIAL NEURAL NETWORKS.....	6
1.1. THE WORK WITH NEURAL NETWORKS .....	6
1.1.1. <i>Selection (Resampling) of data</i> .....	7
1.1.2. <i>Normalization of data</i> .....	8
1.1.3. <i>Methods of choice of features</i> .....	8
1.1.4. <i>Missing data</i> .....	8
1.2. EVALUATION OF CLASSIFICATION QUALITY .....	9
1.2.1. <i>ROC - Analysis</i> .....	9
1.2.2. <i>Evaluating function for classification's evaluation</i> .....	10
1.2.3. <i>Statistical approach to the classification's evaluation</i> .....	10
1.2.4. <i>Evaluation of classification by means of entropy</i> .....	10
2. APPLICATION OF THE NEURAL NETWORKS IN BIOMEDICAL ENGINEERING .....	11
2.1. NEURAL EXPERT'S SYSTEM .....	12
2.2. EXAMPLES OF NEURAL NETWORK'S APPLICATION FOR BIOMEDICAL DATA PROCESSING .....	13
2.2.1. <i>Prediction of signal from the seismocardiograph</i> .....	13
2.2.2. <i>Utilization of the Hopfield's network for preprocessing of medical pictures</i> .....	15
2.2.3. <i>Segmentation of MR pictures by utilizing Kohonen's map</i> .....	16
2.2.4. <i>Detection of tumors by utilizing RBF - network</i> .....	18
CONCLUSION.....	19
BIBLIOGRAPHY .....	20
CURRICULUM VITAE .....	21
