

PROGRAM

FRIDAY, MAY 22

8.25–10.00

Pediatric nephrology – section I (oral presentations)

chairmen: Janda J, Feber J

Janda J, Špatenka J: **History of the Czech Pediatric Nephrology** (p. 11)

Litwin M: **Cardiovascular complications of chronic kidney disease in children** (p. 14)

Šuláková T, Janda J, Feber J: **Recommendations on implementation of ABPM in practice and interpretation of results in children** (p. 16)

Feber J, Šuláková T, Litwin M: **Ambulatory blood pressure monitoring (ABPM) in children – easy for the computer, not so easy for the physician** (p. 17)

Šuláková T, Janda J, Černá J, Janštová V, Šuláková A, Slaný J, Feber J: **Arterial hypertension in children with diabetes mellitus type 1 – frequent and not easy to diagnose** (p. 22)

Storm J, Grcpl J, Rejtar P, Doležal J: **Radiation safety in medical irradiation** (p. 24)

Coffee break 30 min

10.30–12.30

Pediatric nephrology – section II (oral presentations)

chairmen: Šuláková T, Kovács L

Kovács L: **Drinking regime in children (review)** (p. 26)

Feber J, Geier P: **Glucocorticoids in children with idiopathic nephrotic syndrome – dosing and adverse effects in the first 3 months of therapy** (p. 27)

Dušek J, Vondrák K, Secman T, Zieg J, Janda J: **A hockey player with painful chest** (p. 30)

Malina M, Janda J, Secman T: **Monogenous diseases of kidney in children** (p. 33)

Flögelová H, Hálck J, Šmakal O, Michálková K, Dubrava L, Janout V: **Effectiveness of postnatal renal ultrasound screening and criteria for diagnosing pathological renal pelvic dilatation – final report** (p. 36)

Kolský A, Najmanová S, Netvalová S, Rada T, Šilhánková I, Jiroušová K, Kučerová J, Heinige P, Dejllová Kolská M, Skibová J, Lyrer P, Houšťková H: **Acute pyelonephritis – analysis of patients admitted in the years 1997 and 2007** (p. 38)

Nebcsár J: **Children's spa cure for kidney and urinary tract disorders** (p. 40)

Lunch 12.30–13.30

13.30–15.10

Pediatric urology – bladder pathology (oral presentations)

chairmen: Kočvara R, Morávek J

- Rösch WH, Ebert AK: **Andrological, gynecological, psychosocial and psychosexual aspects in the long-term follow-up of patients with bladder-exstrophy and their impact on current approach** (p. 41)
- Morávek J, Kříž J, Trachta J: **Urinary bladder defects in children** (p. 44)
- Riccabona M: **Modern management of children with MMC** (p. 46)
- Zerhau P, Husár M: **Contemporary possibilities of children's detrusor hyperactivity treatment by mini-invasive methods** (p. 49)
- Dítě Z, Molčan J, Janů M, Kočvara R, Sedláček J, Dvořáček J: **The intravesical instillation of propiverin and oxybutinin in the treatment of neurogenic bladder dysfunction in children** (p. 51)

Coffee break 20 min

15.30–16.45

Pediatric urology – kidney and upper urinary tract (oral presentations)

chairmen: Šmakal O, Zerhau P

- J. Kříž, J. Morávek: **Use of renal scan to evaluate renal function in congenital hydronephrosis in children** (p. 53)
- Šmakal O, Vrána J, Hartmann I, Tichý T, Flöglcová H, Michálková K: **The importance of DMSA scans and ultrasound findings in the treatment of congenital anomalies of duplicated kidney associated with obstruction or reflux** (p. 55)
- Svitač J, Javorka K jr., Kliment J: **Associated urological anomalies in children with unilateral renal agenesis** (p. 58)
- Husár M, Zerhau P: **Multi cystic dysplasia – will histology aid in treatment indication?** (p. 59)
- Sedláček J, Langer J, Kočvara R, Dítě Z, Molčan J, Jiskrová H, Dolcžal J: **Is the conservative approach to a high-grade neonatal hydronephrosis really safe? A prospective study** (p. 61)
- Novák I, Skálová S, Šenkeřík M: **The treatment of total duplex kidney by the anastomosis of upper urinary tract** (p. 64)
- Novák I, Janoušková L, Kuliáček P: **Endoscopic submucosal injection of dextranomer/hyaluronic acid copolymer (deflux): a long time follow up** (p. 66)

Coffee break 20 min

17.05–17.45

Pediatric urology – genital pathology (oral presentations)

chairmen: Kříž J, Novák I

- Drlík M, Tichý S: **Are we able to performe orchidopexis at the optimal age?** (p. 68)
- Kočvara R, Sedláček J, Dítě Z, Molčan J, Dvořáček J: **Testicular size and catch-up growth after lymphatic-sparing and lymphatic non-sparing varicocele repair in children and adolescents** (p. 70)

- Kuliaček P, Novák I, Králová M, Janoušková L, Toušek M, Baker K: **Tubularized incised plate urethroplasty (snodgrass) in primary hypospadias repair** (p. 72)
- Novák I, Hak J, Šimáková E, Rejtar P, Krejsck J: **The testicle sparing operation in a case of isolated testicular lymphoma** (p. 75)

20.00 Get together party, dinner in the form of raut, dancing

SATURDAY, MAY 23

8.00–9.00 Ferring workshop (Enuresis) with breakfast

- Dušek J: **Enuresis through the ages** (p. 77)
- Novotná I: **Nocturnal enuresis – selected cases I** (p. 79)
- Kmoníčková M: **Nocturnal enuresis – selected cases II** (p. 80)

9.00–10.00 Poster session

Individual discussion by poster with authors

- Skálová S, Minxová L, Kutilek Š: **Hypercalciuria – a clue to diagnosis** (p. 81)
- Dušek J, Vondrák K, Seeman T, Zieg J, Průša R, Jedličková B, Janda J: **What is the better method for estimation serum creatinine for clinicians: enzymatic or jaffe one?** (p. 82)
- Skálová S, Minxová L, Lukčš A, Dědek P, Podhola M: **Renal vein thrombosis with pulmonary embolism – first manifestation of lupus nephritis** (p. 86)
- Špatenka J, Foltýnová E, Seeman T, Janda J, Matoušovic K: **Relation between donor/recipient body mass and kidney graft function in pediatric renal transplants** (p. 87)
- Doležel Z, Feldman D, Dostálková D, Štarha J: **Hereditary vitamin d-resistant rickets with alopecia – an interesting disease for pediatric nephrologists** (p. 90)
- Doležel Z, Štarha J, Dostálková D: **Monogenic hypertension** (p. 91)
- Hladík M, Zoraň T, Nowaková M: **Prometheus – not just a myth** (p. 93)
- Flögelová H, Tichý T, Michálková K: **Medullary cystic kidney disease with significant proteinuria: case report** (p. 96)
- Bosáková A, Šuláková T, Plevová P, Dvořáčková J: **A new mutation of the *col4a5* gene in a family with alport syndrome (case report)** (p. 97)
- Liška J, Holcček V, Sobotová Š: **Surprising positive effect of nootropics in children with resistant enuresis** (p. 98)
- Ryba L: **Apparently life threatening event of three weeks old boy** (p. 100)
- Jankó V, Daniš D, Kovács L: **Fibrillary glomerulonephritis in an 18 years old boy with corticoid resistant nephrotic syndrome** (p. 101)
- Husár M, Zerhau P: **Multi cystic dysplasia – will histology aid in treatment indication?** (p. 59)
- Doležel Z, Štarha J, Dostálková D: **Pseudo-Bartter syndrome as a presentation of cystic fibrosis** (p. 102)
- Bosáková A, Šuláková T, Dědek V, Širůček P, Havelka J, Krhut J, Pětroš M: **Imaging methods in pediatric renal diseases** (p. 104)
- Kolský A, Peregrin JH, Smrčka V, Korda J, Jiroušová K, Kováč J, Houštková H, Kolská M: **Renovascular hypertension and mid-aortic syndrome in a 12-year-old girl: a case report** (p. 106)

10.05–11.30

Pediatric nephrology – section III (oral presentations)

chairmen: Vondrák K, Doležel Z

- Cataldi L, Zaffanello M, Fanos V: **Urinary tract infection in the newborn infant and in children** (p. 107)
- Zaffanello M: **Hidden high-grade vesicoureteral reflux is the main risk factor of chronic renal damage in infants with first urinary tract infection** (p. 109)
- Skálová S, Kutilek Š, Vethamuthu J, Feber J, Aborawi A, Geier P: **Transient hyperphosphatasemia in pediatric renal transplant patients – is there a need for concern?** (p. 111)
- Vondrák K, Doležel Z, Dušek J, Dvořák P, Hladík M, Secman T, Šimková E, Štarha J, Zaoral T, Zieg J, Janda J: **Annual 2008 report on renal replacement therapy in children in the Czech Republic** (p. 112)
- Gut J, Kocinová L, Kučerová Š, Popelka J: **Nephrological and urological complications in Kawasaki disease** (p. 115)
- Šuláková T, Barnctová D, Širůček P, Bosáková A, Slaný J, Tylččková J: **Clinical quiz: acute renal failure and hepatopathy** (p. 117)
