

PAPERS

- 141 **Complex model of the lower urinary tract**
Brandner M., Egermaier J., Kopincová H., Rosenberg J.
- 151 **Modeling of damage evaluation in thin composite plate loaded by pressure loading**
Dudinský M., Žmindák M., Frnka P.
- 163 **Flexural analysis of deep beam subjected to parabolic load using refined shear deformation theory**
Ghugal Y. M., Dahake A. G.
- 173 **Influence of crucial parameters of the system of an inverted pendulum driven by fibres on its dynamic behaviour**
Polach P., Hajžman M., Šika Z.
- 185 **Buckling analysis of thick isotropic plates by using exponential shear deformation theory**
Sayyad A. S., Ghugal Y. M.
- 197 **Thermoelastic wave propagation in laminated composites plates**
Verma K. L.
- 209 **Self-contained gas turbine unite with turbine expander drive of the compressor for the gas distribution station**
Zaryankin A., Arianov S., Storoguk S., Rogalev A.
- 219 **Dynamic response of nuclear fuel assembly excited by pressure pulsations**
Zeman V., Hlaváč Z.
