

PAPERS

- 5 **Linearization of friction effects in vibration of two rotating blades**
Byrtus M., Hajžman M., Zeman V.
- 23 **Stress wave radiation from brittle crack extension by molecular dynamics and FEM**
Hora P., Červená O., Uhnáková A., Machová A., Pelikán V.
- 31 **The mean stress influence on lifetime under high-cycle fatigue combined loading**
Janoušek J., Balda M., Svoboda J.
- 39 **Influence of delayed excitation on vibrations of turbine blades couple**
Půst L., Pešek L.
- 53 **Experimental and numerical analysis of in- and out- of plane constraint effects on fracture parameters: Aluminium alloy 2024**
Seitl S., Hutař P., García T. E., Fernández-Canteli A.
- 65 **Application of patch test in meshless analysis of continuously non-homogeneous piezoelectric circular plate**
Staňák P., Sládek V., Sládek J., Krahulec S., Sátor L.
- 77 **Semi-analytic solution to planar Helmholtz equation**
Tukač M., Vampola T.
- 87 **Three-body segment musculoskeletal model of the upper limb**
Valdmanová L., Čechová H.
- 99 **A numerical study of wave dispersion curves in cylindrical rods with circular cross-section**
Valsamos G., Casadei F., Solomos G.
