

CONTENTS

Articles:

<i>Karel Segeth</i> : Petr Příklad is seventy	189
<i>Jens Persson</i> : Homogenization of monotone parabolic problems with several temporal scales	191
<i>Alain Miranville</i> : On a phase-field model with a logarithmic nonlinearity	215
<i>Yong-Fu Yang</i> : Global classical solutions to a kind of mixed initial-boundary value problem for inhomogeneous quasilinear hyperbolic systems	231
<i>Tomáš Ligurský</i> : Theoretical analysis of discrete contact problems with Coulomb friction	263
<i>Haribhau L. Tidke, Machindra B. Dhakne</i> : Nonlinear mixed Volterra-Fredholm integrodifferential equation with nonlocal condition	297

Book reviews:

<i>I. Nowak</i> : Relaxation and Decomposition Methods for Mixed Integer Nonlinear Programming	309
