

- Melissa O. Anderson, David R. Lentz, Chris R. M. McFarlane, Hendrik Falck*
A geological, geochemical and textural study of a LCT pegmatite: implications for the magmatic versus metasomatic origin of Nb–Ta mineralization in the Moose II pegmatite, Northwest Territories, Canada..... 299
- Michelle A. McKeough, David R. Lentz, Chris R. M. McFarlane, Jarrod Brown*
Geology and evolution of pegmatite-hosted U–Th ± REE–Y–Nb mineralization, Kulyk, Eagle, and Karin Lakes region, Wollaston Domain, northern Saskatchewan, Canada: examples of the dual role of extreme fractionation and hybridization processes..... 321
- Stanislav Vrána, Vojtěch Janoušek, Jan Franěk*
Contrasting mafic to felsic HP–HT granulites of the Blanský les Massif (Moldanubian Zone of southern Bohemia): complexity of mineral assemblages and metamorphic reactions 347
- Sinan Akiska, Gökhan Demirela, Sönmez I. Sayili*
Geology, mineralogy and the Pb, S isotope study of the Kalkım Pb–Zn ± Cu deposits, Biga Peninsula, NW Turkey 379
